1 Introduction

The *Registered and Accredited Individual Non-government Schools (NSW) Manual* ('the Manual') provides information about the requirements for registered and accredited non-government schools under the *Education Act 1990* (NSW) ('the Education Act').

Registration is a non-government school's licence to operate. The main purpose of registration is to ensure that the requirements of the Education Act are being, or will be, met.

Accreditation authorises a non-government school to nominate candidates for the award of the Record of School Achievement (RoSA) and/or the Higher School Certificate (HSC). The main purpose of accreditation is to ensure that the requirements for the RoSA and/or the HSC are being, or will be, met.

This Manual provides details about:

- the responsibilities of the Minister for Education ('the Minister') in relation to the registration of non-government schools
- the responsibilities of the NSW Education Standards Authority ('NESA') in relation to the registration and accreditation of non-government schools
- the legislative basis for the registration and accreditation of non-government schools
- requirements for registered schools and evidence of compliance with the requirements
- requirements for accredited schools and evidence of compliance with the requirements
- procedures for applying for registration and/or accreditation
- procedures for refusal, non-renewal or cancellation of a school's registration and accreditation
- making an appeal against a decision or recommendation
- application forms
- other relevant information and a glossary.

The Manual should be read in conjunction with the Education Act and, as applicable, NESA syllabuses, the NESA [Assessment Certification Examination \(ACE\) website](http://ace.nesa.nsw.edu.au) (ace.nesa.nsw.edu.au) ('the ACE website'), and NESA Official Notices.

The Education Act is amended from time to time and registered and accredited schools need to be aware that they must abide by the current Education Act and all its amendments.

1.1 Responsibilities of the Minister for Education in relation to the registration of non-government schools

Under the Education Act, the Minister has the authority to:

- approve the registration of an individual non-government school or proposed individual non-government school
- approve the formation of a system of non-government or proposed non-government schools, and

- approve the registration of non-government schools within an approved registration system

provided that, in each case, the relevant requirements of the Education Act are met.

The Minister approves the registration of a non-government school for specific Years of schooling for a specific period of time.

1.2 Responsibilities of NESA in relation to the registration and accreditation of non-government schools

NESA is responsible for making recommendations to the Minister about the registration of individual non-government schools, the approval of a registration system of schools and the registration of non-government schools within approved registration systems. NESA is also responsible for accrediting registered non-government schools if the requirements of the Education Act relating to courses of study to be undertaken by candidates for the ROSA and/or HSC are being, or will be, met. NESA usually accredits a non-government school in Years of schooling for a period of time corresponding to the period of registration of the school.

NESA activities, therefore, involve both setting the regulatory and accountability requirements of the Education Act for non-government schools and oversight of compliance with these requirements. The regulatory and accountability requirements of the Education Act are detailed in this Manual. They represent the minimum standards to be met for a school to be granted a licence to operate.

The requirements focus not only on the curriculum and its delivery but also on policies and procedures that foster the provision of a safe and supportive environment in which students can develop their educational potential. In addition, these requirements assist schools by stating the range of policies and procedures that need to be in place to demonstrate compliance with the Education Act.

The requirements for registered non-government schools relate to:

- **Corporate governance** – schools must be constituted as or conducted by legal entities that are accountable for their contractual obligations. Proprietors, members of governing bodies and principals are required to demonstrate accountability in terms similar to those applying to members of other public or corporate bodies.
- **Teaching standards** – schools should have the capacity to deliver the courses of study for which they are registered and accredited with a high standard of quality teaching. The *Teacher Accreditation Act 2004* ('the TA Act') has set professional teaching standards. Teacher accreditation processes against these standards are administered by NESA.
- **Student welfare** – schools are required to demonstrate that they have in place policies and procedures to provide for the mental, physical and emotional wellbeing of students.
- **Educational programs** – schools are required to base their courses of study on the outcomes of NESA syllabuses, address the developmental needs of students and assist students to achieve their educational potential.
- **Boarding facilities** – schools that operate boarding facilities are required to demonstrate that they have in place policies and procedures for the safety and welfare of boarders.
- **Public reporting** – schools are required to participate in annual reporting to their communities against 'core' educational and financial measures.

As the regulatory body, NESA needs to be assured that a non-government school meets the requirements of the Education Act. To assist in making recommendations to the Minister as to whether a school meets the requirements of the Education Act, NESA has developed explanatory text and an outline of the evidence of compliance in relation to each requirement.

In considering the evidence of compliance provided by a school, NESA recognises that non-government schools vary in their philosophy, ethos and practice. While the requirements of the Education Act need to be met, it is anticipated that the range of policies and procedures that a school has in place will vary and the content will reflect the context and philosophy of the school.

The registration and accreditation process involves dialogue between schools and personnel from NESA, including Inspectors. Inspectors have a statutory role in assessing whether a school complies with the requirements for registration and accreditation.

The *Education Standards Authority Act 2013* ('the NESA Act') requires that an Inspector appointed under the NESA Act be issued with a means of identification in the form approved by NESA. The requisite approved form is a photo ID card issued by NESA bearing the name of the person, identifying the role of Inspector and showing the NESA logo.

In carrying out its responsibilities in relation to registration and accreditation of non-government schools, NESA is committed to complying with the *Privacy and Personal Information Protection Act 1998* (NSW). It is also mindful of confidential matters related to the business affairs of schools. The Information Protection Principles detailed in sections 8 and 9 of the Privacy and Personal Information Protection Act set the privacy standards that NESA is required to follow when dealing with personal information. The NESA Privacy Management Plan describes how NESA complies with the Information Protection Principles in relation to personal information supplied by proposed schools and by registered and accredited schools in complying with the requirements of the Education Act. The Privacy Management Plan is available on the [NESA website](http://educationstandards.nsw.edu.au) (educationstandards.nsw.edu.au).

General information about the registration and accreditation process is available on the [NESA registration and accreditation website](http://rego.nesa.nsw.edu.au) ('RANGS website') (rego.nesa.nsw.edu.au). For specific inquiries about applications for initial registration and/or accreditation or for renewal of registration and/or accreditation of individual non-government schools NESA may be contacted on (02) 9367 8866 or [email](mailto:schoolrego@nesa.nsw.edu.au) (schoolrego@nesa.nsw.edu.au).

2 Legislative Basis for the Registration and Accreditation of Non-government Schools

The Education Act provides for the registration and accreditation of individual non-government schools and non-government schools within a registration system. An updated version of the Education Act can be found on [NSW Legislation](http://legislation.nsw.gov.au) (legislation.nsw.gov.au).

2.1 Definition of a registered non-government school

The Education Act defines a registered non-government school as a school, other than a government school, registered under Part 7 of the Education Act. In undertaking its responsibilities under the Education Act, NESA requires a registered non-government school to:

- have as its major activity the provision of education, either primary or secondary (or both) or of a kind, or for children of a kind, prescribed by the *Education Regulation 2017* ('the Regulations')
- be responsible for an educational program based on NESA syllabuses if registered only, or NESA curriculum and assessment requirements if registered and accredited
- have a principal (or equivalent) responsible for its day-to-day operation.

The term 'school' includes institutions registered for the compulsory years of schooling, institutions granted exemption from registration under section 75 of the Education Act, and those institutions registered for post-compulsory years, or granted exemption from registration under section 75 of the Education Act, provided that the institution is accredited to offer courses that lead to the award of the HSC.

The term 'school' does not include preschools, long day-care centres, pre-primary classes in or attached to schools, referral centres for short-term remediation, senior technical colleges, evening colleges, continuation classes and institutions such as business or coaching colleges and community languages schools. This does not preclude locating such facilities on school premises.

The Education Act requires that schools be registered or meet the requirements for registration if a Certificate of Exemption from registration is granted under section 75.

2.2 Objects for the administration of the Education Act

As described in the 'Objects for administration' of the Education Act, it is the intention of Parliament that every person concerned in the administration of the Education Act or of education for children of school age in NSW have regard (as far as is practicable or appropriate) to the following objects:

- assisting each child to achieve his or her educational potential
- encouraging innovation and diversity within and among schools
- provision of an education for children that gives them access to opportunities for further study, work or training
- mitigating educational disadvantages arising from the child's gender or from geographic,

economic, social, cultural, linguistic or other causes

- provision of an education for Aboriginal children that has regard to their special needs
- development of an understanding of Aboriginal histories and cultures by all children
- provision of an education for children from non-English speaking backgrounds that has regard to their special needs
- recognition of the special problems of rural communities, particularly small and isolated communities
- provision of opportunities to children with special abilities
- provision of special educational assistance to children with disabilities
- development of a teaching staff that is skilled, dedicated and professional
- provision of opportunities for parents to participate in the education of their children
- provision of an education for children that promotes family and community values.

Further, the 'Objects for administration' of the Education Act also provides for courses of study required by this Act for the HSC with regard to the following objects:

- to provide a curriculum structure that encourages students to complete secondary education
- to foster the intellectual, social and moral development of students, in particular by developing:
 - their knowledge, skills, understanding and attitudes in the fields of study they choose
 - their capacity to manage their own learning
 - their desire to continue learning in formal or informal settings after school
 - their capacity to work with others
 - their respect for the cultural diversity of Australian society
- to provide a flexible structure within which students can prepare for:
 - further education and training
 - employment
 - full and active participation as members of the community
- to provide formal assessment and certification of students' achievements
- to provide a context within which schools also have the opportunity to foster the physical and spiritual development of students.

2.3 The role of NESA in the registration and accreditation process

The NESA Act establishes NESA as a corporation and confers numerous powers on NESA. The functions of NESA include providing advice and making recommendations to the Minister about the registration of non-government schools and making decisions about the accreditation of non-government schools under Parts 7 and 8 of the Education Act respectively.

The NESA Act allows NESA to create committees to assist in exercising its functions. The NESA Act allows NESA to delegate its powers under the Education Act to a person or a body,

such as a committee. The NESA School Registration Committee ('Registration Committee') is one such committee. NESA has delegated to this committee its functions concerning the registration and accreditation of non-government schools. The Registration Committee exercises its delegation from NESA within NESA policies.

Note: All references in this Manual to the Registration Committee making recommendations to the Minister concerning registration or decisions concerning accreditation are based on the Registration Committee exercising its delegation from NESA on registration and accreditation matters within prevailing NESA policies. The process of review by the NSW Education Standards Authority Board ('the Board') of decisions or recommendations made by the Registration Committee is described at section 9 of this Manual.

The NESA Act makes provision for NESA to arrange for a registered non-government school to be inspected by an Inspector at random or if NESA has reason to believe that the school is not complying with the requirements for registration.

Section 69 of the Education Act makes provision for the proprietor or principal of a non-government school to provide returns to NESA concerning the requirements for registration in a form and at the times determined by NESA. The approved form may require that the matters included in any such return are certified.

Under section 47(2) of the Education Act, in deciding whether the requirements for registration will be or are being complied with at or in relation to a non-government school, NESA or the Minister is to have regard to matters relating to the quality of student learning. Such matters include, but are not limited to, the following:

- a) the standard of teaching of courses of study provided at the school,
- b) student engagement in learning at the school,
- c) any matters identified in a risk assessment conducted by NESA in relation to the school.

The NESA Act confers on NESA the power to make rules that include guidelines with respect to the requirements for and the conditions of registration and accreditation as set out in Parts 7 and 8 of this Act respectively.

The NESA Act requires NESA to publish its rules, and publication of NESA rules is via NESA Official Notices and this Manual, which are published on the [NESA website](#).

2.4 The registration process

2.4.1 Classes of registration

Section 53 of the Education Act states that the Certificate of Registration for a non-government school certifies the school as efficient for any one or more of the following three classes of registration:

- primary education for any specified Years
- secondary education for any specified Years
- education of a kind, or for children of a kind, prescribed by the Regulations.

Section 47 of the Education Act sets out the registration requirements for schools. Section 66 of the Education Act requires that the current Certificate of Registration be displayed in the

entrance to the main school building or in some other conspicuous place at the school.

Section 53A of the Education Act states that the registration of a non-government school is subject to such conditions relating to the requirements for registration as the Minister may impose (whether at the time the school is registered or at any later time). Any such conditions will be specified in the school's certificate of registration. The Minister may not impose a condition on the registration of a non-government school unless NESAs has made a written recommendation to the Minister that the condition be imposed.

2.4.1.1 Primary education

Registered primary schools provide education for students in Kindergarten to Year 6. Under section 47 of the Education Act, schools providing primary education need to comply with the requirements set out in Part 3 that relate to the minimum curriculum for primary education.

Typically:

- Kindergarten–Year 2 covers Early Stage 1 and Stage 1 of the curriculum
- Years 3–4 covers Stage 2 of the curriculum
- Years 5–6 covers Stage 3 of the curriculum.

2.4.1.2 Secondary education

Registered secondary schools provide education for students in Years 7 to 12. Under section 47 of the Education Act, schools providing secondary education for Years 7–10 need to comply with the requirements set out in Part 3 that relate to the minimum curriculum for secondary education. Section 47 also specifies that schools providing secondary education for Years 11–12 need to comply with the requirements set out in Part 3 that relate to the curriculum for students who are candidates for the HSC.

Typically:

- Years 7–8 covers Stage 4 of the curriculum
- Years 9–10 covers Stage 5 of the curriculum
- Years 11–12 covers Stage 6 of the curriculum.

A secondary school that is registered but not accredited is not eligible to enter candidates for the award of the RoSA or the award of the HSC. Section 93 of the Education Act requires a school that is not accredited to enter candidates for the RoSA or HSC to notify parents of students in writing that students who complete their courses at that school will not be eligible for a RoSA or HSC. Schools should refer to the relevant sections of the *ACE* website for eligibility for the award of the RoSA or HSC for students transferring from one school to another.

2.4.1.3 Schools providing education of a kind, or for children of a kind, prescribed by the Regulations

Children of a kind are prescribed by the Regulations as:

- children who need special instruction because of sensory, physical, intellectual or emotional disabilities
- children who are, or are the children of, foreign nationals.

Schools registered as providing education of a kind only, must establish to the satisfaction of NESAs that they should be registered as offering education of a kind rather than as a primary

and/or a secondary school. As it is the responsibility of the school to provide a curriculum appropriate to the needs of its students, a school that has any students able to undertake the curriculum for primary education for any specified Years, and/or the curriculum for secondary education for any specified Years, must also seek such registration. A school with more than one class of registration must meet the requirements of each class of registration. A school that is only registered for education of a kind, or for children of a kind, prescribed by the Regulations must only have students enrolled at that school that meet those criteria.

2.4.2 Risk assessment

Under sections 50 and 55 of the Education Act, NESA may request the principal or proprietor of a school or proposed school to provide such documentary or other evidence in support of an application for initial or renewed registration as NESA considers necessary based on a risk assessment.

The risk assessment considers factors related to the determinants of student learning and history of compliance including the accreditation and experience of teachers, the standard of teaching, the quality of the educational program, enrolment and attendance and changes in management and operational context.

The breadth and depth of the material to be uploaded by schools with an application for registration, and the material to be reviewed during an inspection, will vary according to the outcome of the risk assessment process.

As part of the risk assessment process, applicants for registration will be required to certify compliance with the requirements for registration and, if relevant, accreditation.

In addition to the certification, schools assessed as lower risk will be required to provide material demonstrating a basic level of assurance while schools assessed as higher risk will be required to provide materials related to the risk profile of the school.

2.4.3 Initial registration

Section 49 of the Education Act requires that a proprietor intending to establish a non-government school that is not part of an approved system of non-government schools make application for initial registration not later than 31 March preceding the calendar year in which the proposed proprietor intends to commence operating. The information that a proposed proprietor must provide in order to demonstrate that the school will have the capacity to comply with the requirements for and conditions of initial registration are detailed in section 4.1 of the Manual.

Applications for initial registration are referred to Inspectors who, after considering the information provided by the applicant and a visit to the proposed school site, prepare a report with a recommendation as to whether or not the proposed school should be registered.

Procedures followed in processing such applications are set out in section 7 of the Manual.

NESA may, in preparing the report, request the proposed proprietor to provide such documentary evidence in support of the application as NESA, based on a risk assessment, considers necessary. NESA is not required to provide the report to the Minister if any such requested information is not provided.

The Inspector's report and recommendation are considered by the Registration Committee who make a recommendation to the Minister under section 50 of the Education Act as to whether the proposed school should be registered. The recommendation is then dealt with in accordance with section 51 of the Education Act. Section 52 of the Education Act requires that the initial registration of a non-government school be provisional. Under this section of the Education Act the maximum period for which initial registration may be granted is twelve (12) months.

Section 52 of the Education Act also makes provision for the Registration Committee, under delegation from NESA, to recommend to the Minister that the initial registration period of the school be extended at any time before the expiry of the period of initial registration of the school if the Registration Committee is not satisfied that the school is complying with the requirements for registration.

2.4.4 Renewal of registration

Section 54A of the Education Act requires applications for renewal of registration to be made at least nine (9) months before the existing school's registration is due to expire, or at a later date decided by NESA and communicated to the proprietor in writing. This section of the Education Act also requires a non-government school applying for renewal of registration to demonstrate:

- whether or not the school continues to satisfy the requirements for registration under section 47 of the Education Act, and
- whether or not, since the school's registration was granted or last renewed, the school has complied with the terms of the registration.

Under section 57 of the Education Act, the maximum period for which registration may be renewed is five (5) years. The requirements that registered non-government schools must meet are detailed in section 3 of the Manual.

Section 57A of the Education Act makes provision for the Registration Committee under delegation, to recommend to the Minister that the registration period of a school be reduced and the school be placed on provisional registration at any time before the expiry of the period of registration of the school if the Registration Committee is not satisfied that the school is complying with the requirements for registration. If the school is placed on provisional registration, parents of students at the school must be notified in writing by the school of the provisional registration status of the school and the consequences of the registration status.

2.4.5 Exemption from registration on religious grounds

Section 75 of the Education Act makes provision for a school to conscientiously object to registration on religious grounds. Schools that have a conscientious objection to registration on religious grounds must give notice to the Minister in writing. An objection to registration under the Education Act may be accepted if the Minister is satisfied that the school would meet the requirements for registration under the Education Act if an application had been made for such registration. Schools that have been granted exemption from registration must meet the requirements detailed in section 3 of the Manual.

Schools granted exemption from registration under section 75 of the Education Act receive a Certificate of Exemption. The Education Act states that such exemption may be granted for up

to five (5) years. Section 83 of the Education Act requires the current Certificate of Exemption from registration to be displayed in the entrance to the main school building or in some other conspicuous place at the school.

2.4.6 Failure to meet the requirements of registration

In cases where the Minister is not satisfied that the requirements for registration are being met, the Minister may, on the recommendation of the Registration Committee, under delegation from the Board, reduce a school's period of registration in accordance with section 57A of the Education Act. This process is detailed in section 4.2 of the Manual.

However, where the Minister is satisfied that the registration requirements are not being met, there is a power to cancel the registration of a non-government school under section 59 of the Education Act. This process is detailed in section 8.1 of the Manual.

2.4.7 Extension of registration

Section 55 of the Education Act provides for NESA, if it is not satisfied that the requirements for or the conditions of registration are being complied with at a non-government school, to issue a notice to the school stating that renewal of registration of the school will not be recommended until the matters of concern stated in the notice have been addressed. The notice may specify the time within which any such matters must be addressed. The notice may also request the principal or proprietor of the school to provide such documentary or other evidence in support of the application for renewal of registration as NESA, based on a risk assessment, considers necessary. NESA is not required to make a recommendation to the Minister about the renewal of registration if any such requested information is not provided.

Under section 55 of the Education Act, the Minister may, on the advice of NESA and by written notice to the school, extend the period for which the school is registered in order to enable the concerns specified in the notice to be addressed.

Under the provisions of section 55 of the Education Act, the registration or initial registration may be extended more than once.

2.4.8 Conditions of registration

Under section 53A of the Education Act, the registration of a non-government school is subject to such conditions relating to the requirements for registration as the Minister may impose (whether at the time the school is registered or at any later time). Any such conditions will be specified in the school's certificate of registration.

The Minister may not impose a condition on the registration of a non-government school unless NESA has made a written recommendation to the Minister that the condition be imposed.

2.4.9 Cancellation of registration

Under section 59 of the Education Act, the Minister may, on the recommendation of NESA, cancel the registration of a non-government school by written notice given to the proprietor or principal (or equivalent) of the school.

The Minister may not do so unless the Minister is satisfied that the requirements for or the conditions of registration are not being complied with at the non-government school.

The Minister may not cancel the registration of a non-government school under this section unless written notice of the NESA recommendation has been given to the proprietor or principal (or equivalent) of the school and:

- a) thirty (30) days have elapsed since the giving of that notice, during which time no application has been made to the NSW Civil and Administrative Tribunal (the Tribunal) for a review of the NESA recommendation, or
- b) the Tribunal has determined an application for a review (made within thirty (30) days) of the recommendation and the Minister has considered any contrary recommendation of the Tribunal and the reasons for it, or
- c) any such application for a review of the recommendation has been withdrawn.

2.4.10 Limitation or cessation of registration

Under the Regulations, a non-government school is required to notify NESA when it closes or ceases to operate as soon as possible but not later than one (1) month after such a change has occurred (see section 3.5 of the Manual).

For the purposes of the Regulations, a school ceases to operate when:

- there are no courses of study being taught at the school, that is, there are no courses that are based on and being taught in accordance with NESA syllabuses relevant to the Years of schooling for which the school is registered, or
- there are no students enrolled at the school, that is, enrolled at the school in the Years of schooling for which the school is registered.

Under the Regulations, when a non-government school ceases to operate for one (1) year, the registration of the school is limited to the period ending one (1) year after the end of the first twelve (12) months during which the school did not operate.

When a non-government school ceases to operate for two (2) years or it closes, its registration ceases.

If the registration of a non-government school is limited or ceases, the Minister will give written notice of that limitation or cessation to the proprietor or principal of the school.

The limitation or cessation of registration under the Regulations applies to parts of a school such as a non-government school's campus or specific Years of schooling that cease to operate or close.

Should the registration of a non-government school, or part of a non-government school, be limited or cease under this Regulations, any corresponding accreditation for courses leading to the award of the RoSA and/or HSC is also limited or ceases.

2.5 Conducting an unregistered school

It is an offence under section 65 of the Education Act to conduct or knowingly permit or assist in the conduct of an unregistered school for the education of children of compulsory school age. Penalties apply to persons who conduct unregistered schools.

2.6 The accreditation process

2.6.1 Types of accreditation

Section 85 of the Education Act provides for registered non-government schools to be accredited for the purpose of presenting candidates for the RoSA and/or the HSC provided they meet the requirements of Part 8 of the Education Act.

2.6.1.1 Accreditation of registered secondary schools

Secondary schools that obtain accreditation in addition to registration must provide courses of study developed or endorsed by NESA for the award of the RoSA and/or the HSC in the appropriate Years of schooling.

Section 94 of the Education Act makes provision for NESA to prescribe requirements for the granting of the RoSA to students. Section 95 makes provision for NESA to prescribe requirements for the granting of the HSC to students. Schools should refer to the relevant sections of the *ACE* website for the requirements prescribed by NESA and for eligibility for the award of the RoSA and the HSC.

The current Certificate of Accreditation must be displayed in the entrance to the main school building or in some other conspicuous place at the school.

2.6.1.2 Accreditation of schools providing education of a kind, or for children of a kind, prescribed by the Regulations

Schools that offer education of a kind for children with sensory, physical, intellectual or emotional disabilities/impairments who require individualised curriculum may also be accredited. For accreditation, a school must provide teaching/learning programs developed from NESA syllabuses including NESA Developed courses, Content Endorsed courses and/or NESA Endorsed courses.

2.6.1.3 Accreditation of secondary schools that have been granted exemption from registration

Section 80 of the Education Act requires that a school granted exemption under section 75 of the Education Act be regarded as registered. Such schools can be accredited. Where accredited, they must provide courses of study developed or endorsed by NESA for the award of the RoSA and/or the HSC in the appropriate Years of schooling. Schools should refer to the relevant sections of the *ACE* website for eligibility for the award of the RoSA and the HSC.

The current Certificate of Accreditation must be displayed in the entrance to the main school building or in some other conspicuous place at the school.

2.6.2 Initial accreditation

NESA requires that a person intending to establish an individual registered non-government school for the purpose of presenting candidates for the RoSA and/or HSC make an application for initial accreditation not later than 31 March preceding the calendar year in which the proposed proprietor intends to commence operating. A similar requirement applies to an established registered non-government school applying for initial accreditation.

In considering whether the requirements of the Education Act relating to the courses of study for the recognised certificate will be complied with, section 92 of the Education Act requires

that NESA have regard to:

- the record (if any) of achievement of the students at the school in the courses, and
- the standard of teaching of the courses at the school, and
- the facilities to be provided at the school for the courses.

The information that a proposed school must provide in order to demonstrate that it has the capacity to comply with the requirements for accreditation are detailed in section 6.1 of the Manual.

Under section 86 of the Education Act, applications for initial accreditation are referred to Inspectors who, after considering the information provided by the applicant and a visit to the proposed site, prepare a report with a recommendation as to whether or not the proposed school should be accredited. The Registration Committee, under delegation from NESA, in accordance with this section of the Education Act then deals with the recommendation.

Procedures followed in processing such applications are set out in Part 8 of the Manual.

Initial accreditation of a registered non-government school is provisional. The maximum period for which initial accreditation is granted is twelve (12) months.

2.6.3 Renewal of accreditation

NESA requires applications for renewal of accreditation to be made at least nine (9) months before the existing school's accreditation is due to expire, or, at a later date decided by NESA and communicated to the proprietor in writing. NESA also requires applications for renewal of accreditation to include information demonstrating:

- whether or not the school continues to satisfy the requirements for accreditation under Part 8, and
- whether or not the school has complied with the terms of the accreditation since it was granted or last renewed.

Under section 87 of the Education Act, the maximum period for which accreditation may be renewed is five (5) years. Section 87 also provides for the period of accreditation to correspond to the period of registration of a school, unless NESA considers it not appropriate.

In considering whether the requirements of the Education Act relating to the courses of study for the recognised certificate are being complied with, section 92 of the Education Act requires that NESA have regard to:

- the record (if any) of achievement of the students at the school in the courses,
- the standard of teaching of the courses at the school, and
- the facilities provided at the school.

The requirements that registered non-government schools must meet for accreditation are detailed in section 5 of the Manual.

Section 87A of the Education Act makes provision for the Registration Committee, under delegation from NESA, to reduce the accreditation period of the school and for the school to be placed on provisional accreditation at any time before the expiry of the period of accreditation of the school if the Registration Committee is not satisfied that the school is complying with the requirements for accreditation. If the school is placed on provisional

accreditation, parents of students at the school must be notified in writing by the school of the provisional accreditation status of the school and the consequences of the accreditation status.

2.6.4 Failure to meet the requirements of registration

In cases where the Registration Committee is not satisfied that the requirements for accreditation are being met, the Registration Committee may reduce a school's period of accreditation in accordance with section 87A of the Education Act. This process is detailed in section 6.2 of the Manual.

However, where the Registration Committee is satisfied that the accreditation requirements are not being met, there is a power to cancel the accreditation of a non-government school under section 91 of the Education Act. This process is detailed in section 8.2 of the Manual.

2.6.5 Cancellation of accreditation

Under section 91 of the Education Act, NESA may cancel the accreditation of a non-government school by written notice given to the proprietor or principal (or equivalent) of the school.

NESA may not do so unless NESA is satisfied that the requirements relating to accreditation are not being complied with at the non-government school.

Any such notice to cancel the accreditation of a non-government school has no effect:

- a) until thirty (30) days have elapsed since the giving of the notice, or
- b) an application for a review of the decision has been made to the Tribunal within those thirty (30) days, unless (and until such time as) the Tribunal has confirmed the decision or the application has been withdrawn.

2.7 Conducting a school that is not accredited

It is an offence under section 93 of the Education Act to conduct or knowingly permit or assist in the conduct of a school for the education of candidates for the RoSA or the HSC if the school is not accredited. The Education Act requires that a secondary school that is not accredited to enter candidates for the award of the RoSA notify parents of students in writing each year that students who complete their secondary education at that school will not be eligible for a RoSA.

Penalties apply to persons who conduct schools for the education of students who are candidates for one of the above certificates where the school is not accredited.

3 Requirements for Registered Non-government Schools

Registered non-government schools must meet the requirements of the Education Act. This section of the Manual details the requirements that all registered non-government schools and non-government schools approved as exempt from registration must meet. It also states the evidence of compliance that schools must maintain during any period of registration.

The requirements and evidence of compliance relate to:

- the proprietor and principal of the school
- staff
- curriculum
- premises and buildings
- facilities
- safe and supportive environment
- discipline
- attendance
- management and operation of the school
- educational and financial reporting.

Additional requirements apply to schools with boarding facilities. These are detailed in section 3.11 of the Manual. The maximum period for which registration may be renewed is five (5) years.

NESA may specify matters, in addition to but not inconsistent with the requirements listed above, that NESA or the Minister may have regard to in determining whether the requirements for registration will be or are being complied with at or in relation to a non-government school.

Quality of student learning

In deciding whether the requirements of the Education Act are being complied with in relation to a registered non-government school, NESA will have regard to matters relating to the quality of student learning. Under the Education Act, such matters may include, but are not limited to, the following:

- the standard of teaching of courses of study provided at the school,
- student engagement in learning at the school,
- any matters identified in a risk assessment conducted by NESA in relation to the school.

As well, NESA will have regard to its related functions under the TA Act. The TA Act provides, among other things, that NESA will:

- advise and assist other teacher accreditation authorities in accrediting persons under the TA Act
- monitor the accreditation process across all schools
- ensure that the professional teaching standards are applied fairly and consistently.

The standard of teaching of courses of study provided at a school will be assessed in relation

to evidence demonstrating school-wide policies and consistent practices in areas identified by the *Australian Professional Standards for Teachers* as provided by the TA Act. The emphasis of this process is the collective standard of teaching provided by a school as opposed to the standard of any one teacher at the school.

Specific evidence that is directly related to the standard of teaching and student engagement in learning has been included in relation to the registration requirements for teaching staff (section 3.2.1 of the Manual), curriculum (section 3.3 and, for accredited schools, section 5), facilities (section 3.5) and student welfare (section 3.6.2).

3.1 Proprietor and principal of the school

The proprietor of an individual registered non-government school must be a corporation or other form of legal entity approved by the Minister to be the proprietor of a non-government school.

A legal entity is an individual or organisation that is legally permitted to enter into a contract and be accountable for its contractual obligations. Forms of legal entities, other than a corporation, approved by the Minister to be the proprietor of an individual registered non-government school are registered companies and trusts including religious bodies. While an individual person has legal status as a 'natural person', an individual is not a legal entity approved by the Minister to be the proprietor of an individual registered non-government school.

In relation to registration/accreditation procedures, the Education Act defines the proprietor as the legal entity designated in the school's certificate of registration. The Education Act defines the principal as including an acting principal of the school. NESA distinguishes between the roles and responsibilities of the proprietor and the principal (or equivalent) as follows:

- The proprietor is the legal entity that owns the school. The role of the proprietor is primarily concerned with the governance of the school, including such matters as long-term financial planning, administrative policies and accountability.
- The role of the principal is as delegated by the proprietor or governing body. Usually, the principal is responsible for the management, day-to-day functioning and routine operations of the school. The principal's responsibilities also often include such aspects as the school's operation, curriculum implementation, teaching and learning programs, assessment, health and safety, student welfare, staff selection, supervision and professional development, registers of enrolment and daily attendance, maintenance of buildings, and management of facilities, resources and equipment.

The roles of proprietor and principal may be carried out by one or more people.

Where a school has no principal, section 129 of the Education Act provides that:

- any notice required or permitted to be given by or under this Education Act to the principal of the school, if given to any of the teachers at the school, is to be taken to have been given to every teacher at the school, and
- an obligation imposed by or under the Education Act on the principal is to be taken to be an obligation imposed on every teacher at the school, but which may be discharged by any one of them on behalf of them all.

Evidence of compliance

A registered individual non-government school must maintain documentary evidence that the school's proprietor is one of the types of legal entity approved by the Minister to operate an individual registered non-government school: for example, a memorandum, a constitution or other articles of association that establish the entity, a trust deed or incorporation documents.

3.2 Staff

3.2.1 Teaching staff of a registered non-government school must have the necessary experience and qualifications (having regard to accreditation under the *Teacher Accreditation Act 2004* but without limiting such other matters as may be relevant)

The TA Act provides a system of accreditation and recognition of teachers' professional capacity against professional standards. Information about professional standards and teacher accreditation can be viewed on the [NESA website](#).

The teaching staff of a non-government school must have the necessary experience and qualifications having regard to accreditation under the TA Act.

In assessing a school's compliance with this registration requirement the holistic capacity of a school's teaching staff to deliver the curriculum for which the school is registered will also be considered by NESA.

Relevantly to NESA requirements, section 3A of the TA Act provides that 'teach' means in relation to a school - to undertake duties that include:

- (i) delivering courses of study that are designed to implement the school curriculum under the Education Act, and
- (ii) assessing the participation, performance and progress of students in those courses, whether or not the person who is undertaking such duties undertakes other duties in the school.

A reference in this section and in the Manual to 'teacher', 'teachers', 'teaching' or 'teaching staff' is a reference that is consistent with the meaning of 'teach' as defined by TA Act.

To meet the requirements of the TA Act, from 1 January 2018 'teachers' employed by registered non-government schools must be accredited to teach in NSW.

The school proprietor is required to ensure that the school has a teacher accreditation authority that complies with NESA's *Guidelines for the Regulation of Teacher Accreditation Authorities for Non-government Schools and Early Childhood Education Centres* ('the TAA Guidelines').

Evidence of compliance

A non-government school must have a teacher accreditation authority that has been approved under NESA's TAA Guidelines.

A registered non-government school must document:

- copies of qualifications used to determine the suitability of each teacher it has employed

and copies of teacher accreditation documentation

- details, including the qualifications and teaching experience, of all part-time and full-time teaching staff
- the school's documented plan for providing alternate qualified teaching staff in the event that regular teaching staff are unavailable
- how the *Australian Professional Standards for Teachers* and other policies of NESA as provided by the TA Act are being implemented, including:
 - processes for supporting teachers in attaining and maintaining accreditation, including the induction, mentoring and professional development of teachers
 - processes for improving the collective standard of teaching at the school, including professional collaboration aimed at improving teacher practices and student outcomes.

3.2.2 For students approved by the school to study individual courses through an outside tutor, the principal must have taken all reasonable steps to ensure that each tutor has the capacity to teach the course and is a suitable person to work with children

Registered schools may access outside tutors to deliver courses of study to students enrolled at the school. An outside tutor is any person, other than a teaching staff member of the school, whom the school has approved to deliver a specified course of study that is part of the curriculum as described by Parts 1, 3, 7 and 8 of the Education Act to a student or students enrolled in the school. The delivery of such a course may take place on school premises or at premises other than the school's premises. The outside tutor may deliver the course to students during or outside school hours.

Persons employed by the school as casual teachers, or persons who provide specialist expertise for part of a course that is under the supervision of a teaching staff member who has responsibility for teaching the course at the school, are not considered outside tutors.

Registered and accredited schools providing courses of study that are delivered by an outside tutor for the RoSA and/or HSC should refer to section 5.3.2 of the Manual.

Evidence of compliance

A registered non-government school must document the process used by the school to:

- verify an outside tutor's capacity to teach a course
- ensure that in accessing any outside tutor the school continues to comply with the requirements under the *Child Protection (Working with Children) Act 2012*
- ensure that the school, if accredited, continues to comply with the requirements of the ACE Website for approved study with an outside tutor.

For each outside tutor approved by a school to conduct individual courses of study with students, the school must maintain documentation that records:

- evidence that originals of the outside tutor's qualifications and/or evidence of relevant experience and/or expertise have been seen by the principal or the principal's (or equivalent's) authorised delegate
- evidence that the school has sought and obtained satisfactory reports from referees concerning the outside tutor's suitability as an outside tutor

- details of the process undertaken by the school to verify the outside tutor's capacity to teach the course and the outcome of that process
- evidence of a working with children check clearance as required under the *Child Protection (Working with Children) Act 2012* in relation to the outside tutor and the outcome of that process
- the procedures in place to ensure that curriculum requirements are being met and will continue to be met for the course(s) of study delivered by the outside tutor.

The use of an outside tutor does not abrogate the school's obligation to ensure that all of the registration requirements that are relevant to that mode of delivery are met.

3.2.3 A registered non-government school's educational program may include outsourcing of particular courses/subjects to one or more external providers, provided that:

- **the school remains primarily responsible for the student**
- **the courses outsourced comprise a minority of each student's overall pattern of study (except with approval from NESAs)**

An external provider is any organisation that the school has arranged to deliver a specified course of study that is part of the curriculum as described by Parts 1, 3, 7 and 8 of the Education Act to a student or students enrolled at the school. The delivery of such a course may take place on school premises or elsewhere.

Registered schools may access external providers to deliver courses of study to students enrolled at the school. For registered non-government primary schools and secondary schools and non-government schools approved as exempt from registration, external providers may include:

- another registered school
- a government school including:
 - the NSW School of Languages
 - Distance Education Centres
 - Saturday School of Community Languages
- TAFE NSW Colleges
- Registered Training Organisations (RTOs)
- other external providers with appropriate scope of registration, qualifications and expertise.

The registered school needs to ensure that the courses outsourced comprise a minority of each student's overall pattern of study for each Stage of learning (except with approval from NESAs to outsource more than a minority of courses for a student or group of students).

In exceptional circumstances, as determined by NESAs, NESAs may approve of a non-government school outsourcing more than a minority of courses from an overall pattern of study for an individual student or a group of students where the school considers it necessary to provide an appropriate educational program. The Board has delegated authority to grant such approval to the Registration Committee.

In seeking approval from NESA, the school would need to provide documentation to:

- describe the exceptional circumstances
- explain the educational program and how it meets the needs of the student(s)
- identify the external provider
- identify the courses that are intended to be outsourced
- provide assurance that all other requirements for registration would be met including the school maintaining primary responsibility for the student(s).

Registered and accredited secondary schools providing outsourced courses of study for the RoSA and/or HSC through external providers should refer to section 5.3.2 of the Manual.

Evidence of compliance

A registered non-government school must maintain documentation that records:

- that the school has documented processes for being assured that any external provider accessed by the school complies with the *Child Protection (Working with Children) Act 2012* in relation to each person in child-related work as defined by the *Child Protection (Working with Children) Act 2012*
- the student(s) undertaking the course(s)
- the suitability of the external provider(s) accessed by the school to deliver the course(s), including, where relevant, evidence of certification of the provider(s) by appropriate agencies
- the agreement with each external provider including identification of the respective responsibilities of the school and the provider
- the procedures in place to ensure that curriculum requirements are being met and will continue to be met for the course(s) of study delivered by each external provider.

For each student undertaking one or more courses that have been outsourced to an external provider accessed by the school, the school must maintain records to demonstrate that the outsourced courses comprise a minority of each student's overall pattern of study for each Stage of learning, unless approval from NESA has been obtained to outsource more than a minority of each student's overall pattern of study.

The use of an external provider does not abrogate the school's obligation to ensure that all of the registration requirements that are relevant to that mode of delivery are met.

3.3 Curriculum

3.3.1 The curriculum, including curriculum outcomes, provided by a registered non-government school must comply with the requirements set out in Part 3 of the Education Act relating to:

- (i) in the case of a school providing primary education – the minimum curriculum for a school providing primary education, or**
- (ii) in the case of a school providing secondary education for children during Year 7 to Year 10 – the minimum curriculum for a school providing secondary education, or**

(iii) in the case of a school providing secondary education for children during Year 11 and Year 12 – the curriculum for students who are candidates for the Higher School Certificate

3.3.1.1 Primary schools

Registered non-government primary schools will have:

- an educational program based on, and taught in accordance with, the outcomes of NESA syllabuses for the six key learning areas (KLAs) of primary education:
 - English
 - Mathematics
 - Science and Technology
 - Human Society and Its Environment
 - Creative Arts
 - Personal Development, Health and Physical Education
- courses of study in each of the KLAs for each child during each Year
- courses of study that are appropriate for the children concerned having regard to their level of achievement and needs
- courses of study in accordance with any relevant guidelines developed by NESA and approved by the Minister.

Evidence of compliance

A registered non-government primary school must maintain documentation for each calendar year of the current registration period that includes:

- timetables for each Year/class showing the allocation of time and teachers for each KLA
- an overview of the school's educational program indicating:
 - the scope and sequence of learning/units of work in relation to outcomes of NESA syllabuses for each KLA for each Year
 - an assessment plan indicating how students' performance in each KLA is assessed, monitored and recorded
- an overview of the process for reporting student achievement
- evidence relating to the standard of teaching that includes:
 - consistency between the various elements of the school's curriculum including NESA syllabus outcomes, scope and sequence, teaching programs, assessment records and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
 - records of the progressive achievement of students over time
 - records of the school's analysis of student achievement data to inform teaching and learning
 - records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students

- evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students.

A school must have resources and equipment available for providing the required KLAS/courses.

For each calendar year, the school must maintain for each Year/class, until the end of that calendar year:

- teaching programs for each unit of work that correspond to those identified in the scope and sequence of learning/units of work
- samples of student work that relate to the teaching program for that year.

3.3.1.2 Secondary schools providing education for children during Year 7 to Year 10

Registered non-government secondary schools will have:

- an educational program based on, and taught in accordance with, the outcomes of NESA syllabuses for Years 7–10
- courses of study for each child in at least six of the eight key learning areas (KLAs) of secondary education:
 - English
 - Mathematics
 - Science
 - Human Society and Its Environment
 - Languages
 - Technological and Applied Studies
 - Creative Arts
 - Personal Development, Health and Physical Education
- courses of study for each child during each Year in:
 - English
 - Mathematics
 - Science
 - Human Society and Its Environment
- courses of study that are appropriate for the children concerned having regard to their level of achievement and needs
- courses of study in accordance with any relevant guidelines developed by NESA and approved by the Minister.

The syllabuses on which the education program of a registered school must be based in order to meet the above requirements are specified on the [NESA website](#).

A secondary school that is registered but not accredited to enter candidates for the RoSA must notify parents of students in writing each year that students who complete their secondary

education at that school will not be eligible for a RoSA. It must also inform parents of the consequences for potential candidates for that credential of the school not being accredited.

Registered non-government schools seeking accreditation must meet the additional curriculum requirements outlined in section 5 of this Manual.

Evidence of compliance

A registered non-government secondary school must maintain documentation for each calendar year of the current registration period that includes:

- timetables for each Year/class showing the allocation of time and teachers for each KLA
- an overview of the school's educational program indicating:
 - the scope and sequence of learning/units of work in relation to the outcomes of NESA syllabuses for each KLA for each Year
 - an assessment plan indicating how students' performance in each KLA is assessed, monitored and recorded
- an overview of the process for reporting student achievement
- evidence relating to the standard of teaching that includes:
 - consistency between the various elements of the school's curriculum including NESA syllabus outcomes, scope and sequence, teaching programs, assessment records and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
 - records of the progressive achievement of students over time
 - records of the school's analysis of student achievement data to inform teaching and learning
 - records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- evidence that the school, if registered or exempt from registration only, informs parents of students in writing each year that the school is not eligible to enter candidates for the RoSA and indicates the consequences for potential candidates for that credential of the school not being accredited.

A school must have resources and equipment available for providing the required KLAs/courses.

For each calendar year, the school must maintain for each Year/class, until the end of that calendar year:

- teaching programs for each unit of work that correspond to those identified in the scope and sequence of learning/units of work
- samples of student work that relate to the teaching program for that year.

3.3.1.3 Secondary schools providing education for children during Year 11 to Year 12

Schools that provide secondary education for Years 11 and 12 must comply with the curriculum requirements set out in section 12 of the Education Act that relate to the curriculum for students who are candidates for the HSC.

Schools registered for Years 11 and 12 must deliver:

- an educational program based on, and taught in accordance with, the outcomes of NESA syllabuses for Stage 6
- courses of study that include a course of study in English
- courses of study for each student each year that comply with a pattern of study for Year 11 and Year 12 as described on the *ACE* website for candidates for the HSC (ACE 8005).

A secondary school that is registered for Years 11 and 12 but not accredited to enter candidates for the HSC must notify parents of students in writing each year:

- that the school is not accredited to present candidates for the HSC
- as a consequence, that students who complete their Year 12 course at the school will not be eligible for a HSC.

Schools that are registered and also accredited for courses leading to the award of the HSC, must also comply with the curriculum requirements set out in Part 8 of the Education Act that relate to the curriculum for students who are candidates for the HSC (refer to section 5.2 of the Manual).

Evidence of compliance

A non-government secondary school registered for Years 11 and 12 must maintain documentation for each calendar year of the current registration period that includes:

- timetables for each Year/class showing the allocation of time and teachers for each course
- an overview of the school's educational program indicating:
 - the scope and sequence of learning/units of work in relation to the outcomes of NESA syllabuses for each course for each Year
 - an assessment plan indicating how students' performance in each course is assessed, monitored and recorded
- courses of study for each student each year that comply with a pattern of study for Year 11 and Year 12 as described on the *ACE* website for candidates for the HSC (ACE 8005)
- an overview of the process for reporting student achievement
- evidence relating to the standard of teaching that includes:
 - consistency between the various elements of the school's curriculum including NESA syllabus outcomes, scope and sequence, teaching programs, assessment records and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
 - records of the progressive achievement of students over time
 - records of the school's analysis of student achievement data to inform teaching and learning

- records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- evidence that the school, if registered or exempt from registration only, informs parents of students in writing each year that the school is not eligible to enter candidates for the HSC and indicates the consequences for potential candidates for that credential of the school not being accredited.

A school must have resources and equipment available for providing the required KLAs/courses.

For each calendar year, the school must maintain for each Year/class, until the end of that calendar year:

- teaching programs for each unit of work that correspond to those identified in the scope and sequence of learning/units of work
- samples of student work that relate to the teaching program for that year.

3.3.2 NESAs may approve modifications to part of a NESA syllabus for use in a particular school as it considers necessary to enable any part of a key learning area, that appears to NESA to be incompatible with the educational philosophy or religious outlook of a registered non-government school, to be based on and taught compatibly with that educational philosophy or religious outlook

Where a school considers that one or more of the outcomes of a NESA syllabus are incompatible with the school's educational philosophy or religious outlook for part of the school's curriculum, the Education Act makes provision for the school to apply to NESA to use modified outcomes for that part of the syllabus. In these instances, NESA may grant approval for the use of modified outcomes for part of a syllabus by that school if NESA is satisfied that:

- the identified NESA outcome(s) are incompatible with the educational philosophy and/or religious outlook of the school
- the proposed modified outcome(s) are compatible with the educational philosophy and/or religious outlook of the school
- the proposed modified outcome(s) comply with the curriculum guidelines developed by NESA and approved by the Minister.

Modifications approved under this provision of the Education Act are not permitted to the curriculum for the RoSA or HSC.

In the event that NESA is unable to approve a modification because of an inconsistency between the modification sought and the curriculum guidelines, the school may request a review of that aspect of the curriculum guidelines.

A registered non-government school seeking approval to use modified outcomes for part of a NESA syllabus must apply to NESA nine (9) months prior to the projected implementation date (see section 7.3.6 of this Manual).

Evidence of compliance

Where NESA has approved the modification of an outcome(s) of a NESA syllabus for a particular school, the registered non-government school must maintain documentation that records:

- the specific NESA syllabus outcome(s) that have been modified
- the philosophical or religious reasons for modifying NESA syllabus outcome(s)
- the modified educational outcome(s) as approved by NESA
- how the modified outcome(s) approved by NESA comply with the curriculum guidelines developed by NESA and approved by the Minister.

In addition to the evidence of compliance required for section 3.3.1 above, the school must also maintain documentation for each calendar year of the current registration period that includes:

- how the modified outcome(s) approved by NESA are appropriate to the level of achievement and needs of the students
- timetables for each Year/class showing the allocation of time for the modified outcome(s) approved by NESA
- the overview of the school's educational program indicating where the modified outcome(s) approved by NESA occur in relation to the scope and sequence of learning/units of work referred to in section 3.3.1 above
- resources and equipment allocated to NESA-approved modified outcome(s)
- an assessment plan indicating how student achievement of any modified outcome(s) approved by NESA are assessed, monitored and recorded.

3.3.3 A registered non-government school that has students undertaking all or a significant part of their courses of study by means of distance education must provide a curriculum, including curriculum outcomes, that accord with the requirements of Part 3 of the Education Act

The Education Act makes provision for a school to deliver to its enrolled students all or a significant part of courses in distance education mode.

Distance education means the delivery of courses of study during which teachers and students enrolled in the school are not regularly in the presence of each other but communicate with each other in writing, by print or by electronic or other means. This excludes situations where a school that does not normally deliver courses by means of distance education provides, either in writing, by print or by electronic means:

- units of work/activities for a student who has been granted leave by the principal
- courses of study that its students access through an outside tutor or external provider.

Many schools use electronic means to enhance the courses of study provided by the school. This can include video-conferencing, online lessons hosted by another school and/or online

interactions between cohorts in other schools to share data, debate or exchange views. A school would not be considered to be delivering distance education to its students if the teacher with prime responsibility for delivering the course of study was regularly in the presence of students and supplemented the teaching with a range of audiovisual aids.

Under the distance education provision, a school may deliver all or a significant part of courses from Kindergarten to Year 12 by means of distance education. When a registered non-government school delivers distance education to its students, the school must have in place policies and procedures that are appropriate to ensure the personal and social development of its students. These policies and procedures must include the provision of a minimum of fifteen (15) school days of 'residential school' sessions for all students undertaking a full-time distance education program (pro-rata for students undertaking a part-time program).

'Residential school' sessions are times when students and teachers are in the presence of each other at the same physical location undertaking learning activities related to the school's education programs. 'Residential school' sessions are also used to supplement those aspects of the program that develop students' personal and social skills. Additionally, students undertaking courses with practical components must be provided with additional 'residential school' sessions to ensure that they have opportunities to achieve the course outcomes for practical work.

If a registered non-government school intends to deliver all or a significant part of its students' courses of study by means of distance education, the school must notify NESA nine (9) months prior to the implementation of such a change to seek approval (refer to sections 3.9.5 and 7.3.5 of the Manual).

Evidence of compliance

In addition to the evidence of compliance required for section 3.3.1 above, a registered non-government school delivering all or a significant part of the courses of study to its students by means of distance education must maintain documentation for each calendar year of the current registration period that includes:

- policies and procedures for authenticating student work
- guidelines for people such as family or community members who act as on-site supervisors of a student's distance education work
- policies and procedures in relation to providing a minimum of fifteen (15) days of 'residential school' sessions each school year for each student undertaking all of their courses of study by distance education. The number of days of 'residential school' sessions provided for students undertaking less than a full program of study by means of distance education is to be calculated on a pro-rata basis
- policies and procedures in relation to providing additional 'residential school' sessions for students undertaking courses that include practical components
- policies and procedures in relation to teacher visits to students
- teaching programs, including specific details of all teaching and learning activities provided to students, for each distance education course offered
- the annual schedule for teaching programs and activities undertaken at 'residential school' sessions
- the annual schedule for additional 'residential school' sessions for courses that include practical components

- evidence relating to the quality of teaching and student learning.

For each of its students undertaking all or a significant part of their courses by means of distance education the school must maintain documentation that records:

- learning progress in relation to syllabus outcomes
- attendance at 'residential school' sessions
- the mechanisms by which each student is able to interact with relevant teachers each week
- the dates of teacher visits to the student
- procedures for the formal supervision of students undertaking external examinations/tests.

3.3.4 A registered non-government school that provides education of a kind, or for children of a kind, must provide a curriculum to cater to the needs of its students

Where a school is registered as providing education of a kind, or for children of a kind, the Education Act makes provision for the school to provide a specific curriculum to cater to the needs of its students.

A school with more than one class of registration must meet the requirements of each class of registration.

A secondary school that is registered but not accredited to enter candidates for the RoSA and /or HSC must notify parents of students in writing each year that students who complete their secondary education at that school will not be eligible for a RoSA and /or HSC. It must also inform parents of the consequences for potential candidates for that credential of the school not being accredited.

Evidence of compliance

Where the Minister has approved the registration of a non-government school as providing education of a kind, or for children of a kind, the non-government school must maintain documentation for each calendar year of its registration that includes:

- documentation to certify that each student undertaking such education is a foreign national or a child of a foreign national, or, a child of a kind as prescribed by the Regulations
- how the curriculum delivered by the school meets the needs of the students
- timetables for each Year/class showing the allocation of time and teachers for each learning area/course
- an overview of the school's educational program indicating:
 - the scope and sequence of learning/units of work in relation to each learning area/course for each Year/class
 - an assessment plan indicating how students' performance in each learning area/course is assessed, monitored and recorded
- an overview of the process for reporting student achievement
- evidence relating to the standard of teaching that includes:
 - consistency between the various elements of the school's curriculum including scope and sequence, teaching programs, assessment records and samples of student work

- records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
- records of the progressive achievement of students over time
- records of the school's analysis of student achievement data to inform teaching and learning
- records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- evidence that, if the school is a secondary school that is registered or exempt from registration only, the school informs parents of students in writing each year that the school is not eligible to enter candidates for the RoSA and/or the HSC and indicates the consequences for potential candidates for that credential of the school not being accredited.

A school must have resources and equipment available for providing the learning area/courses.

For each calendar year, the school must maintain for each Year/class, until the end of that calendar year:

- teaching programs for each unit of work that correspond to those identified in the scope and sequence of learning/units of work
- samples of student work that relate to the teaching program for that year.

Where a non-government school is registered to provide education for children who are, or are the children of foreign nationals, the teaching staff must hold qualifications that are deemed appropriate by the relevant education authority (or equivalent) to teach the curriculum being delivered.

3.4 Premises and buildings

A registered non-government school's premises and buildings must be satisfactory

The premises and buildings of a registered non-government school must comply with:

- relevant council and government requirements
- work health and safety legislation and subordinate legislation
- environmental and land use guidelines.

In NSW, buildings need to meet the building standards operational at the time of the approval to build. In 1997, all states and territories gave the Building Code of Australia (BCA) the status of building regulations. The BCA contains technical provisions for the design and construction of buildings and other structures and covers such matters as fire resistance, access and egress, services and equipment and aspects of health and amenity.

While the BCA applies to new buildings, proprietors and principals (or equivalent) of schools have a common law responsibility to ensure that older buildings are safe for educational purposes. In a dispute regarding safety or the appropriateness of a building, guidance is often sought by referring to the BCA. For older buildings, it is therefore advisable for the proprietor and principal (or equivalent) of a school to refer to local government requirements with respect to compliance with the relevant sections of the BCA.

Registered schools must be able to provide assurance that the premises and buildings are satisfactory throughout any registration period.

Evidence of compliance

A registered non-government school must:

- maintain written evidence that all school premises and/or buildings comply with all relevant legislation
- have policies to assess and monitor the current standard and state of repair of the school's premises and buildings, making reference to current building requirements
- maintain details of annual fire safety statements which comply with Part 9 Division 5 of the *Environmental Planning and Assessment Regulation 2000*
- confirm that it has policies and procedures to meet the requirements of the *Disability Discrimination Act 1992* in terms of the school's buildings and premises.

3.5 Facilities

A registered non-government school must have educational facilities that are adequate for the courses of study provided by the school

Typically school facilities include:

- general classrooms
- classrooms with facilities to support the delivery of particular courses
- information and communication technologies (ICTs)
- a designated library area
- indoor open space
- indoor or outdoor recreational space.

Registered schools need to have processes in place that can assist them to provide assurance throughout their registration period that the educational facilities are adequate for the courses of study and the number of students in each course.

Evidence of compliance

A registered non-government school must:

- have the facilities required for each course of study offered, taking into account:
 - the number of students undertaking each course
 - any specialist requirements of the course
 - the range of student learning needs
 - if the facilities are off-site, an ongoing arrangement that ensures the availability of the

off-site facilities for the duration of the course

- assess and monitor the current standard and state of repair of facilities, taking into account the requirements of relevant legislation including the:
 - *Explosives Act 2003*
 - *Work Health and Safety Act 2011*.

3.6 Safe and supportive environment

3.6.1 A registered non-government school must have in place policies and procedures to ensure that it meets its legislative obligations in relation to child protection

A number of Acts relate to child protection in New South Wales:

- the *Ombudsman Amendment (Child Protection and Community Services) Act 1998* which added Part 3A to the [*Ombudsman Act 1974*](http://legislation.nsw.gov.au) (legislation.nsw.gov.au)
- the [*Child Protection \(Working with Children\) Act 2012*](http://legislation.nsw.gov.au) relating to working with children check clearances for all persons at the school engaged in child-related work (legislation.nsw.gov.au)
- the [*Children and Young Persons \(Care and Protection\) Act 1998*](http://legislation.nsw.gov.au) which sets out the responsibilities of Community Services with regard to child protection (legislation.nsw.gov.au).

A registered non-government school is responsible for knowing and complying with its obligations under each of these Acts.

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures to:

- ensure that staff who have direct contact with students are informed annually of their legal responsibilities related to child protection and other relevant school expectations
- ensure that requirements to notify and investigate allegations of reportable conduct in compliance with the *Ombudsman Act 1974* are made known to staff annually
- ensure that all persons engaged in child-related work at the school, as defined by the *Child Protection (Working with Children) Act 2012*, have a working with children check clearance from the Office of the Children's Guardian, as required
- ensure that evidence of working with children check clearances is maintained by the school for all persons in child-related work at the school as required under the *Child Protection (Working with Children) Act 2012*
- respond to reportable matters in accordance with legislative requirements
- ensure that all staff who are mandatory reporters under the *Children and Young Persons (Care and Protection) Act 1998* are informed annually of their obligations and the process that the school has in place in relation to mandatory reporting
- set clear guidelines and expectations for stakeholders regarding complaints or allegations of staff misconduct or reportable conduct
- publish the school's complaint handling procedures regarding allegations of staff misconduct or reportable conduct.

3.6.2 A registered non-government school must provide a safe and supportive environment by:

- having in place policies and procedures that provide for student welfare**
- maintaining a student enrolment and attendance register**

Safe environment

A safe environment for students is one where the risk of harm is minimised and students feel secure. Harm relates not only to dangers in the built environment, involving such matters as architecture and construction, lighting, space, facilities and safety plans, but also refers to violence, physical threats, verbal abuse, threatening gestures, sexual harassment and racial vilification.

Supportive environment

A supportive environment fosters the social, academic, physical and emotional development of students. A supportive environment can be described as one in which:

- students are treated with respect and fairness by teachers, other staff and other students
- members of the school community feel valued
- effective teaching and learning takes place
- positive support and encouragement are provided by members of staff and students
- non-discriminatory language and behavioural practices are defined, modelled and reinforced by members of the school community
- consultation takes place on matters relating to students' education and welfare.

Student welfare

Student welfare encompasses the mental, physical and emotional wellbeing of the student. Provisions for student attendance are integral to providing for student welfare. Student welfare policies and programs are essential for developing a sense of self-worth and fostering personal development. Student welfare could include:

- programs that the school provides to meet the personal, social and learning needs of the students
- effective discipline
- monitoring student attendance and strategies for improving unsatisfactory attendance
- early intervention programs for students at risk
- student, family and community support networks
- opportunities that the school provides for students to:
 - enjoy success and recognition
 - make a useful contribution to the life of the school
 - derive enjoyment from their learning.

Evidence of compliance

A registered non-government school must have in place and implement policies and

procedures in relation to:

- security, with specific reference to:
 - students
 - buildings and facilities
 - evacuation procedures
- supervision, with specific reference to protocols and guidelines, including risk management, for students undertaking on-site and off-site activities
- codes of conduct for members of the school community, with specific reference to:
 - rights and responsibilities of students and staff within the school community
 - behaviour management
 - anti-bullying including contact information for School Liaison Police and/or Youth Liaison Officers and other support services available to the school community
 - if relevant, staff supervision of any student leadership system if it provides authority for students to discipline or direct other students at the school
 - management and reporting of serious incidents and emergencies
- complaints or grievances, with specific reference to processes for raising and responding to matters of concern identified by students and/or parents
- pastoral care, with specific reference to:
 - personnel responsible for pastoral care including access to counselling
 - identification of and provision of support for students with special needs
 - health and the distribution and monitoring of medication
 - response to serious incidents and emergencies
- maintaining a student enrolment and attendance register
- student attendance, with specific reference to:
 - processes for monitoring attendance data
 - intervention strategies to improve unsatisfactory attendance, including implementing strategies designed to improve student engagement in school and learning
- communication, with specific reference to formal and informal mechanisms available between stakeholders interested in a student's education and wellbeing.

While the title and scope of policies and procedures that a school has in place in relation to the above areas will vary depending on the school's philosophy, ethos and practice, each of the above areas must be addressed within the totality of the school's policies and procedures.

Where students are approved to study with an outside tutor or are undertaking courses/subjects with an external provider, the registered non-government school must have policies and procedures in place that are appropriate to ensure the safety and welfare of such students and to promote their personal and social development.

3.6.3 A registered non-government school must have policies and procedures that are appropriate to ensure the personal and social development of students who are undertaking all or a significant part of their courses of study by means of distance education

The Education Act makes provision for students to undertake all or a significant part of their courses of study by means of distance education where the school has in place policies and procedures that are appropriate to ensure the personal and social development of its students.

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures that are appropriate to ensure the personal and social development of students undertaking all or a significant part of their courses of study by means of distance education. The school must maintain documentation for each calendar year of the current registration period that includes:

- evidence that it has made available to stakeholders in a student's education and welfare, the school's guiding principles and general organisation including statements about:
 - school aims
 - enrolment policies
 - student welfare policies
 - staff roles and responsibilities
 - communication mechanisms and processes for handling complaints
 - learning and social support services provided for students
 - assessment policies and procedures
- procedures to monitor students' personal and social development
- policies and procedures that are appropriate to ensure the safety and welfare of students undertaking 'residential school' sessions. Where accommodation for a 'residential school' is provided by the school itself or by contractual arrangement (excluding brief school excursions and 'home stay' accommodation), such policies and procedures must meet the standards for the safety and welfare of boarders (refer to sections 3.11.1 to 3.11.8 of the Manual)
- details of the school's programs that focus on personal and social development
- structured experiences that focus on personal and social development at the 'residential school' sessions
- details of school support personnel, such as a counsellor, who assist with issues related to personal and social development as needed.

The use of distance education as a mode of delivery by a school does not abrogate the school's obligation to ensure that all of the registration requirements that are relevant to that mode of delivery are met.

3.7 Discipline

3.7.1 A registered non-government school must have policies relating to discipline of students attending the school that are based on principles of procedural fairness

The Education Act requires that policies related to the discipline of students be based on procedural fairness. It is the responsibility of the school to determine incidents that may require disciplinary action and the nature of any penalties that may apply. The process that leads to the imposition of such penalties, particularly but not exclusively in relation to suspension,

expulsion and exclusion, must be procedurally fair.

Suspension is a temporary removal of a student from all of the classes that a student would normally attend at a school for a set period of time.

Expulsion is the permanent removal of a student from one particular school.

Exclusion is the act of preventing a student's admission to a number of schools. In extreme circumstances, the principal of a school may make a submission to an appropriate authority, or to other schools, recommending the permanent exclusion of a student from the registration system of which the school is a member, or from other schools.

Procedural fairness is a basic right of all when dealing with authorities. Procedural fairness refers to what are sometimes described as the 'hearing rule' and the 'right to an unbiased decision'.

The 'hearing rule' includes the right of the person against whom an allegation has been made to:

- know the allegations related to a specific matter and any other information which will be taken into account in considering the matter
- know the process by which the matter will be considered
- respond to the allegations
- know how to seek a review of the decision made in response to the allegations.

The 'right to an unbiased decision' includes the right to:

- impartiality in an investigation and decision-making
- an absence of bias by a decision-maker.

Procedural fairness includes making available to students and parents or caregivers the policies and procedures under which disciplinary action is taken. It also includes providing details of an allegation relating to a specific matter or incident. This will usually involve providing an outline of the allegations made in witness statements and consideration of witness protection. As part of ensuring the right to be heard, schools could establish any need for parents/caregivers to be provided with interpreter services and, if required, make arrangements for such services to be available.

While it is generally preferable that different people carry out the investigation and decision-making, in the school setting this may not always be possible. If the principal is conducting both the investigative and decision-making stages, he or she must be reasonable and objective. To be procedurally fair, the principal must act justly and be seen to act justly. While it is difficult to combine the roles of investigator and adjudicator, it is acceptable to do so given the nature of the principal's responsibilities. Nevertheless, it may be preferable to have another appropriate officer, such as an assistant principal or independent person, carry out the investigation where possible. The review mechanism adds to the fairness of the process.

In matters where a long suspension, expulsion or exclusion is contemplated, the gravity of the circumstances requires particular emphasis to be given to procedural fairness. This includes the offer of having a support person/observer attend formal interviews. The key points of the interview/discussion should be recorded in writing.

Evidence of compliance

A registered non-government school will have in place and implement policies related to the discipline of students, including but not limited to the suspension, expulsion and exclusion of students, that are based on procedural fairness.

3.7.2 A registered non-government school must have policies related to discipline of students attending the school that do not permit corporal punishment of students

Evidence of compliance

A registered non-government school will have in place and implement policies related to the discipline of students that:

- either expressly prohibit corporal punishment or clearly and exhaustively list the school's discipline methods so as to plainly exclude corporal punishment
- do not explicitly or implicitly sanction the administering of corporal punishment by non-school persons, including parents, to enforce discipline at the school.

3.8 Attendance

The principal of a registered non-government school must keep a register, in a form approved by the Minister, of the enrolments and daily attendances of all children at the school.

The attendance registers must be in a form approved by the Minister. In 2010 the Minister approved a common code for the attendance registers of all New South Wales schools. The codes must be used from the start of the 2012 school year. The codes for use in either manual attendance registers or electronic attendance registers are published on the websites of the Association of Independent Schools of NSW (AIS) and the Catholic Schools NSW (CSNSW).

The register of enrolments and/or the register of daily attendances may be maintained in print or electronic form.

Copies of the information in the register of enrolments and the register of daily attendance should be stored off-site at regular intervals.

In 2010 the Minister, under section 25 of the Education Act, delegated the power to the principal of a non-government school to grant and cancel a certificate of exemption from being enrolled and attending school in certain prescribed circumstances.

Evidence of compliance

The principal of a registered non-government school must:

- maintain a register of enrolments that includes the following information for each student:
 - name, age and address
 - the name and contact telephone number of parent(s)/guardian(s)
 - date of enrolment and, where appropriate, the date of leaving the school and the student's destination
 - for students older than six (6) years, previous school or pre-enrolment situation

- where the destination of a student below seventeen (17) years of age is unknown, evidence that the Department of Education (attendance@det.nsw.edu.au) has been notified of the student's full name, date of birth, last known address, last date of attendance, parents' names and contact details, an indication of possible destination, other information that may assist officers to locate the student, and any known work health and safety risks associated with contacting the parents or student
- have in place and implement policies and procedures to:
 - monitor the daily attendance/absence of students
 - identify absences from school and/or class(es)
 - follow up unexplained absences
 - notify parent(s) and/or guardian(s) regarding poor school and/or class attendance
 - transfer unsatisfactory attendance information to student files
- maintain a register of daily attendance that includes the following information for each student:
 - daily attendance, which may be recorded by noting daily absences
 - absences
 - reason for absence
 - documentation to substantiate reason for absence

Note: The common code approved by the Minister must be used
- have in place and implement policies and procedures for exercising the Minister's delegation under section 25 of the Education Act
- maintain records of the exercise of the above delegation including copies of all certificates issued under the delegation.

The register of enrolments must be retained for a minimum period of five (5) years before archiving. The register of daily attendances must be retained for a period of seven (7) years after the last entry was made.

3.9 Management and operation of the school

3.9.1 Each person defined under the Education Act as a 'responsible person', and any other person or body exercising similar functions in relation to the school as those of a 'responsible person', is a fit and proper person or body

Section 47(1) (b) of the Education Act requires each 'responsible person' for a non-government school to be a fit and proper person or body.

The Education Act defines a 'responsible person' as:

- the proprietor of the school and, if the proprietor is a corporation, each director or person concerned in the management of the school, or
- a member of the governing body of the school, or
- the principal of the school.

This means that all of the above categories are considered to be 'responsible persons' under

the Education Act.

The proprietor of a non-government school must ensure that each 'responsible person' or body for the school is fit and proper. This includes the proprietor ensuring that the school's 'responsible persons' and governing bodies have experience and expertise in administering a school and providing education at a school. The proprietor should consider whether the school's governing body has governance arrangements in place to receive independent and professional advice about the way in which it complies with its obligations under the Education Act.

The proprietor must have policies and procedures for being assured that 'responsible persons' and the governing body of the school are fit and proper and continue to be fit and proper whilst holding the role of a 'responsible person' or governing body for the school. At a minimum, the proprietor must require each 'responsible person' for the school to sign a fit and proper statutory declaration prior to commencing as a 'responsible person' for the school and on at least an annual basis while the person continues to be a responsible person for the school.

In assessing whether the 'responsible persons' and governing body of a non-government school are fit and proper, NESA will consider whether or not each 'responsible person' for the school has:

- debts to any Australian state or territory Government or the Commonwealth Government
- a record of satisfactory financial management, taking into account whether the 'responsible person' or body has been bankrupt, insolvent, subject to court orders or associated with an organisation placed under external administration
- been convicted of, or charged with, an offence, including an offence in relation to children, dishonesty or violence
- engaged in a deliberate pattern of immoral or unethical behaviour.

NESA will have regard to the nature and seriousness, frequency and recency of the above conduct.

The fact that a person may at some time have been convicted of an offence does not necessarily mean that they should not be regarded as being fit and proper. For example, the conviction may have been trivial or very distant in time, and may have been followed by years of exemplary conduct. Consequently, where a person has been convicted of an offence, it will be necessary to consider the nature of the offence, how long ago it was that the conviction was recorded, and the person's conduct since the time of the conviction.

Where a person or governing body has been bankrupted, insolvent, subject to court orders or associated with an organisation placed under external administration, the circumstances and distance in time of the bankruptcy or actions must be considered.

Whether a person or governing body has engaged in a deliberate pattern of immoral or unethical behaviour involves more complex considerations. Breaches of federal or state laws that fall short of constituting criminal offences may be trivial and unintentional. On that basis, they may not provide evidence of a person or governing body not being fit and proper.

However, there will be occasions when non-criminal breaches of law may indicate the presence of moral turpitude such as where there is evidence of:

- a pattern of non-criminal offences without sufficient remorse or a reasonable attempt at

rectifying subsequent conduct;

- the frequent and deliberate setting up of multiple corporate ventures which then fail may justify drawing the inference that those responsible are engaged in sharp practice.

These matters are not definitive but are used as an insight into the fitness and propriety of the 'responsible person' or governing body. In the event that any of the above matters are established, NESA will also have regard to any explanations for that state of affairs including a determination regarding the nature and seriousness of the matter and the frequency of the conduct.

Evidence of compliance

The proprietor of a non-government school must have and implement documented policies and procedures in relation to the requirement for the school's 'responsible persons' and governing body to be fit and proper with specific reference to:

- maintaining information to demonstrate that the school's 'responsible persons' and governing body have the experience and expertise to administer a school that provides an education for school students
- each 'responsible person' for the school signing a fit and proper statutory declaration prior to commencing as a 'responsible person' for the school and at least on an annual basis while the person continues to be a 'responsible person' for the school
- the statutory declaration is to include a response as to whether or not the 'responsible person' has:
 - ever been convicted of an offence against a law of an Australian state or territory or the Commonwealth of Australia
 - ever become bankrupt, insolvent or placed under external administration
 - been convicted of, or charged with, an offence, including an offence in relation to children, dishonesty or violence
 - ever been determined not to be a fit and proper person as prescribed under any law of an Australian state or territory or Australian Commonwealth
 - ever engaged in a deliberate pattern of immoral or unethical behaviour
 - been a 'responsible person' for a non-government school or proposed non-government school where registration was refused or cancelled
- maintaining a copy of each 'responsible persons' declarations for a period of seven (7) years after ceasing to be a 'responsible person' for the school
- responding to information suggesting that a 'responsible person' for the school may not be fit and proper in order to ensure that the school's 'responsible persons' and governing body are fit and proper at all times
- notifying NESA as soon as practicable if the school's proprietor or a 'responsible person' or governing body of the school determines that a 'responsible person' or governing body of the school is not fit and proper. Such notification should be forwarded to the Director, School Registration and Accreditation, GPO Box 5300, Sydney, NSW 2001 or by [email](mailto:schoolrego@nesa.nsw.edu.au) (schoolrego@nesa.nsw.edu.au).

3.9.2 'Responsible persons' and previous refusal or cancellation of registration

Section 47(1)(c) of the Education Act provides that any refusal to register, or cancellation of

registration, of the school or any other school under section 56 or 59, occurring during the period of five (5) years immediately before the application for registration is made has not been largely attributable to the actions of a 'responsible person' or proposed 'responsible person' for the school, or any other person or body having similar functions in relation to the management or operation of the school to those of a 'responsible person'.

Evidence of compliance

A registered non-government school must have in place processes of notification and disclosure by which it can assure NESAs that any refusal or cancellation of registration in relation to a non-government school or proposed non-government school in the past five (5) years has not been largely attributable to the actions of a 'responsible person' for a school.

3.9.3 A registered non-government school must have policies and procedures for the proper governance of the school in place

This requirement provides for policies and procedures for the proper governance of the school to be in place. The 'responsible persons' for a non-government school, as defined by the Education Act, are accountable for proper governance of the school and for meeting this requirement.

A school's proprietor and, if the proprietor is a corporation, each director or person concerned in the management of the school, members of the school's governing body, the school's principal and any other person or body exercising a function in relation to the management of the school are considered under the Education Act to be 'responsible persons' for the school.

Proper governance requires the 'responsible persons' for a school to have in place structures, policies and procedures for governance, leadership, authority, decision-making, accountability and transparency.

In general terms, the requisite policies and procedures for proper governance must be consistent with properly accepted community norms for school governance. A number of widely accepted standards and authorities exist in this regard, such as the Australian Securities and Investments Commission (ASIC) and the Australian Securities Exchange.

The operate for profit provisions of the Education Act may also be relevant as will, for the vast majority of schools not operating for profit, the requirements of the Australian Charities and Not-for-profits Commission ('ACNC').

While there are commonly accepted features of proper governance, the specific governance structures, policies and procedures a particular non-government school has in place for proper governance will vary according to the context and philosophy of the school. The policies and procedures will also vary according to the governance structure of the school and the authority, delegated by the school's proprietor to governing bodies or positions within the school, for example the authority delegated to a school council, school principal and/or school executive.

In assessing a school's compliance with this requirement, NESAs will have regard to whether, within the totality of the school's policies and procedures, there are provisions for the matters specified as minimum requirements in sections 3.9.3.1 to 3.9.4 of the Manual.

3.9.3.1 Policies and procedures

The 'responsible persons' for a non-government school, are responsible for developing and implementing policies and procedures to govern and operate the school in order to satisfy its legal obligations, manage risk, provide strategic guidance and monitor performance.

Evidence of compliance

The 'responsible persons' for a registered non-government school must have in place and implement policies and procedures in relation to, but not limited to, the following:

- a school charter or document identifying the governance structure of the school and the respective authority, role and responsibilities of each of the school's 'responsible persons' and any other person or body concerned in the management of the school
- a delegations schedule to:
 - identify the respective authority within the governance structure
 - describe the process for withdrawing a delegated authority
- a document to set out supervisory arrangements and reporting requirements for the school's 'responsible persons' including any governing body and school executive
- a code of conduct for the school's 'responsible persons'
- maintenance of records of governance decisions and actions made by the school's 'responsible persons', including minutes of formal meetings of the school's 'responsible persons', on and from 1 September 2014 and retaining such records for a minimum period of seven (7) years before archiving
- a document describing the school's legal compliance process to facilitate the school's compliance with all relevant legislation and reduce any risk of non-compliance
- a document describing the school's risk management framework or plan for developing, implementing and reviewing risk management strategies in relation to strategic direction, governance, operation and finance and the associated risk register.

3.9.3.2 Conflict of interest

Each 'responsible person' for a non-government school must avoid situations in which his or her personal interests or the interests of a relative or close associate may conflict either directly or indirectly with decisions made by the governing body, whether the conflict is actual, perceived or potential. Such conflicts of interests include but are not limited to related party transactions described at section 3.9.3.3 below.

Evidence of compliance

The 'responsible persons' for a registered non-government school must have in place and implement policies and procedures in relation to dealing with conflict of interest with specific reference to:

- an overarching statement defining conflict of interest within the context of the school's governance structure
- documented processes for:
 - an annual declaration by each 'responsible person' for the school in relation to any actual, perceived or potential conflict
 - maintaining records of the annual declaration of each 'responsible person' for the school on and from 1 September 2014 and retaining such records for a period of seven (7) years before archiving or disposing

- requiring each 'responsible person' at formal meetings of the school's 'responsible persons' to raise any actual, perceived or potential conflict with regard to items on the agenda for the meeting and for recording in the minutes of the meeting any conflict that is raised
- each 'responsible person' with a conflict of interest (including but not limited to a pecuniary interest or a related party transaction) mitigating the ensuing risk in a way that is acceptable to the other 'responsible persons' involved (for example, by absenting themselves from participating in any associated decision-making or advisory role).

3.9.3.3 Related party transactions register

In the context of a non-government school, a 'related party transaction' includes any transaction through which a 'responsible person' for the school acting on behalf of the school provides a financial or other tangible benefit to a related party (such as themselves or another 'responsible person' for the school or their spouse, other relatives or close associates and other related organisations). As related party transactions involve conflicts of interest or material personal interests, a non-government school must have policies and procedures for financial management including a register of all related party transactions which is validated by an external independent auditor.

Evidence of compliance

The 'responsible persons' for a registered non-government school must have in place and implement policies and procedures related to related party transactions:

- requiring each 'responsible person' for the school to disclose any related party transactions made on behalf of the school's proprietor or governing body
- maintaining a register of all related party transactions on and from 1 September 2014 and retaining such records for a period of seven (7) years before archiving or disposing. The degree of materiality of the transaction will determine the degree of detail required to be included in the register
- arranging for an external audit of the school's register of all related party transactions on an annual basis
- retaining a record of each external audit report of the register of all related party transactions on and from 1 September 2014 and retaining such records for a period of seven (7) years before archiving
- notifying NESA if the contract or arrangement with the school's external auditor is terminated by the school or external auditor prior to the expiry of the term of the contract or arrangement and the reason(s) for that termination.

3.9.3.4 Professional learning for 'responsible persons'

Proper governance of a non-government school requires policies and procedures for the ongoing professional development of 'responsible persons' for the school to ensure that the school's 'responsible persons' have relevant qualifications, skills and experience for governing the school properly.

The specific professional learning to be completed by any one 'responsible person' for a school will depend on the person's pre-existing qualifications and professional experiences, the school's policies and procedures for professional learning and the particular role and responsibilities of the person. Governance professional learning should include a school context regardless of a 'responsible person's' professional experience and qualifications.

Evidence of compliance

The 'responsible persons' for a registered non-government school must have in place and implement policies and procedures for the ongoing professional learning of the school's 'responsible persons' with specific reference to:

- the mandatory completion of a minimum twelve (12) hours of professional learning with regard to governance for each 'responsible person' for the school over each three (3) year period from the time of commencing as a 'responsible person'; to be delivered by a NESA approved training provider¹
- relevant professional learning for 'responsible persons' with responsibilities for areas of governance requiring particular qualifications, skills or expertise, for example in relation to finance, compliance, risk management and/or education, delivered by a NESA approved training provider²
- maintaining a register of professional learning and training undertaken by each 'responsible person' for the school including the following details for each year:
 - name of 'responsible person'
 - role or position of responsibility
 - professional learning (date, nature, provider and hours)
- retaining the register of professional learning on and from 1 September 2014, including relevant records such as evidence of completion of professional learning, and retaining such records and each entry into the register from the date of entry for a minimum period of seven (7) years before archiving or disposing.

3.9.3.5 Induction process for new 'responsible persons'

Proper governance of a non-government school requires policies and procedures for the induction of new 'responsible persons' for the school.

Evidence of compliance

The 'responsible persons' for a registered non-government school must have in place and implement policies and procedures for the induction of new 'responsible persons' with specific reference to:

- an induction process for new 'responsible persons' including, at a minimum, the mandatory successful completion of a NESA approved training program by a NESA approved training provider³ in relation to proper governance prior to taking up the role of 'responsible person' or within three months of becoming a 'responsible person' for the school
- a school-based induction program to provide each new 'responsible person' with a copy of the following documents:
 - a copy of all the school's documents, policies and procedures specified at 3.9.3.1 of the Manual and any other key policy document for the school
 - the school's most recent audited financial statements
 - recent minutes of meetings of the school's 'responsible persons'
- maintaining evidence that each new 'responsible person' has received a copy of all of the

¹ Approved providers of governance training programs are published on NESA's website from time to time

² Refer to Footnote 1

³ Refer to Footnote 1 (see page 47)

documents specified above

- maintaining a register of the induction process identifying the following details for each new 'responsible person':
 - name
 - date of becoming a 'responsible person' for the school
 - position of responsibility
 - details of any qualifications and/or experience relevant to the particular position of responsibility
 - details of the successful completion of a NESAs approved training program in relation to proper governance (date(s), provider, nature of training)
- retaining the register of induction on and from 1 September 2014 and retaining each entry into the register from the date of entry for a minimum period of seven (7) years before archiving or disposing.

3.9.3.6 External independent attestation audit of annual financial statements

The school's annual financial statements are to be audited and certified by an external independent auditor.

Evidence of compliance

The school's proprietor is to certify or is to provide other evidence that the audit and accompanying certificate:

- have been completed by an auditor recognised by CPA Australia, Chartered Accountants Australia and New Zealand, the Institute of Public Accountants or another recognised accounting body approved by NESAs
- comply with any other requirements imposed by Commonwealth or NSW Government agencies providing funding to the school
- have not been completed by a person or body with whom the school has another business relationship in addition to audit services or with whom any of the 'responsible persons' of the school has a conflict of interest.

The school must have policy and procedures for notifying NESAs if the contract or arrangement with the school's external auditor is terminated by the school or external auditor prior to the expiry of the term of the contract or arrangement and the reason(s) for that termination.

The school's audited and certified annual financial statements in relation to any period on and from 1 September 2014 are to be available for inspection and are to be retained for a minimum period of seven (7) years after the end of the period to which the annual financial statements refer before archiving or disposing.

3.9.4 Financial viability

A registered non-government school must be financially viable

Under section 47(1) (a1) of the Education Act, a registered non-government school must be financially viable.

Financial viability provides for the school to be administered and achieve the purpose of providing an education for school students whilst remaining financially solvent.

In considering the financial viability of a registered non-government school, NESAs will have

regard to:

- whether the school's proprietor is a body corporate that is being wound up
- whether the affairs of the proprietor are under any form of external control, such as the control of a manager, under any law
- whether, in the view of NESA, the liabilities of the proprietor are greater than its assets
- whether, in the view of NESA, the proprietor is, and is likely to continue for a substantial period to be, unable to pay its debts when they fall due for payment
- whether an audit conducted in accordance with any law is expressed to be qualified materially or expresses concern about the financial viability of the proprietor.

NESA will also have regard to whether a non-government school provides evidence from a body or person approved by NESA certifying the school's current compliance with NESA requirements for demonstrating financial viability.

Other information which may be considered by NESA in order to assess the school's compliance with the requirement to be financially viable includes, but is not limited to:

- audited annual financial statements, an independent audit report and independent auditor's management letter
- compliance with any requirements imposed by state or Commonwealth agencies providing funding to the school
- recent Commonwealth Financial Questionnaire completed by the school
- current school year operating financials (management accounts)
- schedule of loan agreements, if applicable
- property lease or rental agreements, if applicable, including the length of the lease or rental agreement and the annual cost of accommodation services
- information about any remuneration and/or reimbursements of expenses paid to members of the governing body and other related parties and the award or agreement under which staff salaries are being paid
- current school business plan
- current year's budget and forecast budgets for three to five years
- insurance policies covering risk areas for the school.

Evidence of compliance

The proprietor of a non-government school is required to maintain evidence to demonstrate the current financial viability of the school at the time of making an application for initial or renewed registration.

The required evidence of financial viability is prescribed by NESA based on a risk assessment, and is to be in the form of a certification or warrant by a body or person approved by NESA⁴ for that purpose.

The prescribed form of certification or warrant will be one of the following:

- certification from the principal of the school as required in the online application form for

⁴ Approved bodies and persons for the purpose of financial viability certification or warrants, and other materials relating to financial viability are published on the [RANGS website](https://rego.nesa.nsw.edu.au/) (<https://rego.nesa.nsw.edu.au/>).

renewal of registration, or

- *Certification of Financial Viability* from a NESA approved body or person assessed against the NESA Financial Viability Framework, or
- a *Financial Viability Warrant* from a NESA approved body or person providing assurance of financial viability.

The NESA *Certification of Financial Viability*, *Financial Viability Framework*, *Financial Viability Warrant* and an overview of the risk assessment approach of NESA are published on the NESA registration [RANGS website](#).

During the assessment of an application for registration, an Inspector may request additional information if concerns about compliance are identified.

The proprietor of a registered non-government school must have policies and procedures for:

- assessing the school's financial viability at regular intervals with specific reference to the records and documents to be used in making the assessment
- retaining the school's audited and certified financial statements on and from 1 September 2014 for a minimum period of seven (7) years before archiving or disposing
- retaining a copy of the financial viability certification or warrant in the form prescribed by NESA by the NESA approved body or person for that purpose on and from 1 January 2017 for a minimum period of seven (7) years before archiving or disposing
- notifying NESA if the contract or arrangement with the school's external auditor is terminated by the school or external auditor prior to the expiry of the term of the contract or arrangement and providing the reason(s) for the termination
- notifying NESA if the affairs of the proprietor are under any form of external control, such as the control of a manager, under any law. Such notification should be forwarded to the Director, School Registration and Accreditation, GPO Box 5300, Sydney, NSW 2001 or by [email](mailto:schoolrego@nesa.nsw.edu.au) (schoolrego@nesa.nsw.edu.au).

In determining a school's financial viability, an Inspector may require a school to provide relevant documentation such as:

- audited annual financial statements, an independent audit report and independent auditor's management letter
- compliance with any requirements imposed by state or Commonwealth agencies providing funding to the school
- recent Commonwealth Financial Questionnaire completed by the school
- current school year operating financials (management accounts)
- schedule of loan agreements, if applicable
- property lease or rental agreements, if applicable, including the length of the lease or rental agreement and the annual cost of accommodation services
- information about any remuneration paid to members of the governing body and the award or agreement under which staff salaries are being paid
- current school business plan
- current year's budget and forecast budgets for three to five years
- insurance policies covering risk areas for the school
- any other relevant materials.

3.9.5 NESAs must be notified of certain matters

- 1 The Education Act requires that any person defined as a 'responsible person' under the Education Act (and any other person or body exercising similar functions in relation to the management and operation of the school) be a fit and proper person and be able to carry out their responsibilities in relation to the operation of the school. Specifically, the Education Act requires that NESAs be notified if a person defined as a 'responsible person' under the Education Act (and any other person or body having similar functions in relation to the school to those of such a 'responsible person'):

- is convicted of an offence that is punishable by imprisonment for twelve (12) months or more; or
- becomes bankrupt, applies to take the benefit of any law for the relief of bankrupt or insolvent debtors, compounds with his or her creditors or makes an assignment of his or her remuneration for their benefit; or
- if the person is a corporation – is the subject of a winding up order or has had a controller or administrator appointed.

NESA is also to be notified if the school's proprietor or a 'responsible person' or governing body of the school determines that a 'responsible person' (or other person or body having similar functions as a 'responsible person' in relation to the school) or governing body of the school is not fit and proper.

In the above circumstances the Education Act requires that a 'responsible person' for the school notify NESAs and at least one other 'responsible person' of the circumstances surrounding the conviction, bankruptcy, insolvency, winding up order or appointment of the controller or administrator as soon as practicable after it occurs. Notifications in relation to (1) are subject to the NESAs Privacy Management Plan.

- 2 The Education Act also requires NESAs and at least one other 'responsible person' to be notified if a 'responsible person' (or other person or body having similar functions as a 'responsible person' in relation to the school) becomes a mentally incapacitated person and becomes:

- a patient at an institution because of that incapacity; or
- a protected person under the *NSW Trustee and Guardian Act 2009*.

Notifications in relation to (2) are subject to the NESAs Privacy Management Plan.

- 3 The Education Act requires that the Minister be notified if the school moves or is sold. To comply with this requirement the proprietor and/or principal must notify NESAs. Specifically:

- if a registered non-government school or part of a school proposes to move to new premises, written notice is to be given by the proprietor and/or the principal of the school to NESAs at least three (3) months before relocation. This particularly relates to moving premises and buildings connected with the teaching of courses of study, the amenities for teachers and students participating in those courses of study and boarding facilities provided for students by the school
- if the legal entity that owns a registered non-government school is sold, written notice of the sale is to be given by the purchaser to NESAs within seven (7) days of the completion of the sale.

For the purposes of this section of the Education Act, relocation or new premises means any site where the street address of that site is different to, or in addition to, the street address at which the school is currently registered on the Certificate of Registration.

- 4 The Education Act also makes provision for schools to provide returns to NESA. Specifically, the proprietor or the principal of a registered non-government school must provide returns to NESA concerning the requirements for registration in relation to the school in a form, and at the times, approved by NESA for that purpose. The approved form may require that the matters specified in any such return are certified.

To comply with the requirements detailed in (1), (2), (3) and (4) above, such notification should be forwarded to NESA. Notifications related to (1) and (2) above should be forwarded to the Director, School Registration and Accreditation, GPO Box 5300, Sydney, NSW 2001 or by [email](mailto:schoolrego@nesa.nsw.edu.au) (schoolrego@nesa.nsw.edu.au). Notifications related to (3) and (4) above should be made using NESA's online facility, [RANGS Online](https://boshoboardofstudies.nsw.edu.au/links/rangsonline) (boshoboardofstudies.nsw.edu.au/links/rangsonline).

Evidence of compliance

A registered non-government school must demonstrate that processes are in place by which:

- the proprietor of the school, and, if the proprietor is a corporation, each director, trustee or person concerned in the management of the school
- each member of the governing body of the school, and
- the principal

are informed of their responsibilities under the Education Act, any Regulation under the Education Act and NESA requirements, including any duties of disclosure or notification.

A registered non-government school must provide, and document its process for providing, a return to NESA if, following an investigation by a relevant agency or authority, the school is formally notified in writing by that agency or authority of an alleged breach by the school of any of the following legislation:

- *Ombudsman Act 1974*
- *Child Protection (Working with Children) Act 2012*
- *Children and Young Persons (Care and Protection) Act 1998*
- *Teacher Accreditation Act 2004*
- *Disability Discrimination Act 1992*
- *Work Health and Safety Act 2011*
- *Environmental Planning and Assessment Act 1979*
- *Food Act 2003*
- *Explosives Act 2003*
- *Building Code of Australia.*

Such notification must be provided to NESA within fourteen (14) working days of the formal notification of an alleged breach. The notification should be forwarded to the Director, School Registration and Accreditation, GPO Box 5300, Sydney, NSW 2001 or by [email](mailto:schoolrego@nesa.nsw.edu.au) (schoolrego@nesa.nsw.edu.au).

A registered non-government school must provide, and document its process for providing, a return to NESA using NESA's online facility, [RANGS Online](#) when changes occur to the:

- *management and operation of the school*
 - where a notification in relation to a 'responsible person' is required (see sections 3.9.5 (1) and (2) of this Manual), the notification should be forwarded to the Director, School Registration and Accreditation, GPO Box 5300, Sydney, NSW 2001 or by [email](#) (schoolrego@nesa.nsw.edu.au)
 - commencing from 1 July 2016, where a 'responsible person' for the school commences or ceases in the role of a 'responsible person', NESA must be notified within twenty-eight (28) days of the change by updating the school's details on [RANGS Online](#)
 - where a notification in relation to financial viability is required (see section 3.9.4 of this Manual), NESA must be notified within one (1) month of such change(s)
 - where there has been an appointment of a new principal (or equivalent), or a change in contact details for the school's existing principal (or equivalent), NESA must be notified within one (1) month of such change(s)
 - commencing from 1 July 2016, the maintenance of details of persons who are 'responsible persons' for the school (apart from the school's principal) including each person's name, role, date of commencing and, when relevant, date of ceasing to be a 'responsible person' for the school within twenty-eight (28) days of a change being made and maintaining these records for a period of seven (7) years from the date of each entry before archiving or disposing
 - where there has been a change in the contact name or other contact details for a registered campus, NESA must be notified within one (1) month of such change(s) occurring
 - where the school has been sold, written notice is to be given by the purchaser to NESA within seven (7) days of completion of the sale
 - where the school's proprietor changes for any other reason, written notice is to be given by the new proprietor to NESA within seven (7) days of the change
 - where a school's existing proprietor changes its name or contact details, NESA must be notified within one (1) month of such change(s) occurring
 - where the school intends to change its name, or the name of a registered campus, NESA must be notified at least one (1) month prior to such change taking effect
 - where there has been a change in the school's postal address or other contact details, NESA must be notified within one (1) month of such change(s) occurring
 - where the school closes or ceases to operate as a school, or for specific Years of schooling (see section 2.4.10 of this Manual), NESA must be notified within one (1) month of the change
- *staffing of the school* - where there is a turnover of half or more of the teaching staff during any twelve (12) month period, NESA must be notified at the commencement of the next new term
- *curriculum* – where the school:
 - increases the scope of its curriculum by teaching one or more courses in a KLA from which it has not previously taught any courses, NESA must be notified within one (1) month of such a change being implemented
 - intends to deliver additional Years of schooling at a registered campus, NESA must be notified at least three (3) months prior to the implementation of such a change
 - intends to decrease the Years of schooling it delivers at its main site or at a registered campus, NESA must be notified within one (1) month of such a change being

implemented

- intends to deliver all or a significant part of students' courses of study by means of distance education, the school must notify NESA seeking approval at least nine (9) months prior to the implementation of such a change. This excludes situations where a school that does not normally deliver courses by means of distance education provides units of work/activities for a student who has been granted leave by the principal and/or courses of study that its students access through outside tutors or external providers
- *premises and buildings* – where the school intends to:
 - add another campus, NESA must be notified at least three (3) months prior to the implementation of such a change
 - move to a new site, NESA must be notified by the principal (or equivalent) and/or proprietor of the school three (3) months prior to the relocation
 - close or cease operating a campus, or specific Years of schooling at a campus (see section 2.4.10 of this Manual), NESA must be notified within one (1) month of such a change
- *schools with boarding facilities* – where:
 - the school intends to relocate the boarding facilities on the school site or move the facilities to a new site, NESA must be notified by the principal (or equivalent) and/or proprietor of the school three (3) months prior to the relocation
 - there is a turnover of half or more of the full-time staff with supervisory responsibilities for boarders during any twelve (12) month period, NESA must be notified at the commencement of the new term
- *schools intending to provide boarding facilities* - where the school intends to provide regular overnight accommodation for students at the school, either itself or by contractual arrangement, the school must notify NESA to seek approval at least nine (9) months prior to the intended date of initial provision of such facilities.

3.10 Educational and financial reporting

3.10.1 A registered non-government school must participate in annual reporting to publicly disclose the educational and financial performance measures and policies of the school

The Education Act requires each registered non-government school to prepare an annual report of a kind determined by the Minister on the school's performance measures and policies as identified by the Minister. Accordingly, the Minister has determined that the performance measures and policies that must be included in the annual report relate to:

- a message from key school bodies
- contextual information about the school
- student outcomes in standardised national literacy and numeracy testing
- the granting of RoSA
- results of the HSC
- professional learning and teacher standards
- workforce composition

- senior secondary outcomes
- student attendance and management of non-attendance
- retention of Year 10 to Year 12 (where relevant)
- post-school destinations
- enrolment policies and characteristics of the student body
- school policies
- school determined improvement targets
- initiatives promoting respect and responsibility
- parent, student and teacher satisfaction
- summary financial information.

Each registered non-government school's annual report must include the following information:

- a message from key school bodies
- contextual information about the school
- student outcomes in standardised national literacy and numeracy testing
- the granting of RoSA (where relevant)
- results of the HSC including comparison of student performance to statewide performance and trends in student performance (where relevant).

Where it does not contravene privacy and personal information policies, graphical and/or tabulated presentation of this information is required and should show:

- comparative performance over time,
- comparisons with statewide performance, and
- comparative information in relation to similar schools where appropriate.

Interpretive comments for the graphical/tabulated information presented must be provided.

Publication of performance data must be consistent with the requirements of all relevant State and national legislation.

- senior secondary outcomes (where relevant) including:
 - percentage of students in Year 12 undertaking vocational or trade training, and
 - percentage of students in Year 12 attaining a Year 12 certificate or equivalent VET qualification
- a summary of professional learning undertaken by teachers (as defined by the TA Act) during the year
- details of the teacher accreditation status of all teaching staff (as defined by the TA Act) who are responsible for delivering the curriculum
- workforce composition, including Aboriginal and Torres Strait Islander peoples (as known and with regard to consideration of privacy issues)
- student attendance rates for each Year level and the whole school
- a description of how the school manages student non-attendance
- retention of Year 10 to Year 12 (where relevant)

- post-school destinations (secondary schools only). For students beyond the compulsory years of schooling these can be represented in broad terms (eg workforce, further study, unknown) and in the most appropriate way according to each school's circumstances
- the full text or a link to the full text of the school's enrolment policies, including all prerequisites for continuing enrolment
- characteristics of the student body
- school policies. A summary of policies for student welfare, anti-bullying, discipline and complaints and grievances, with information on:
 - changes made to these policies during the reporting year
 - how these policies are disclosed publicly
 (Note: the policies may be discrete or integrated according to school context)
- priority areas for improvement as selected by the school including comments on the achievement of priorities for the previous year. The areas selected for improvement by the school may or may not include targets for student achievement
- actions undertaken by the school to promote respect and responsibility. These may relate to respectful behaviour, involvement in community service activities, and specific class-based activities
- a description in plain language of parent, student and teacher satisfaction. This can be represented in the most appropriate way according to each school's circumstances
- summary financial information which includes:
 - income from all sources, including Commonwealth and State grants and subsidies and all private income, including fees and donations
 - expenditure on all purposes, including teaching and learning, administration and financing (ie borrowing costs, depreciation, etc).

Financial information is to be based on and reported in a form consistent with the detailed information provided to the Commonwealth Government each year in the Commonwealth Financial Questionnaire.

The presentation of financial information may be in graphical forms such as pie charts, provided that each segment of the graphic represents specific dollar amounts aggregated from the financial information that each school provides annually to the Commonwealth. Where schools use a graphical representation, the overall financial position of the school must be organised according to the areas covered by the Commonwealth Questionnaire as follows:

- Graphic one – recurrent/capital income, with segments detailing percentages derived from:
 - fees and private income
 - State recurrent grants
 - Commonwealth recurrent grants
 - government capital grants
 - other capital income

- Graphic two – recurrent/capital expenditure, showing percentages spent on:
 - salaries, allowances and related expenses
 - non-salary expenses
 - capital expenditure.

Evidence of compliance

A registered non-government school must participate in annual reporting to publicly disclose the educational and financial performance measures and policies of the school as identified by the Minister (as detailed in this section of the Manual).

Schools may include the information covered by these requirements within their existing reporting documentation, or produce a separate report. If information addressing these requirements is incorporated in existing documentation, it must be by way of a clearly identified, separate section. The Education Act requires that this information be publicly disclosed. Ideally, this information will be published or its availability advertised online if the school has a website.

The school's annual report must be provided in an online or appropriate electronic form to NESA unless otherwise agreed by NESA.

Reports are to relate to each school year. Each non-government school is to produce a report by no later than 30 June in the year following the reporting year.

3.10.2 A registered non-government school must provide data to the Minister that is relevant to the Minister's annual report to Parliament on the effectiveness of schooling in the State

The Minister may report annually to Parliament on a range of issues including the results of the HSC examinations and other information. The Education Act makes provision for the extent to which examination results can be made public. From time to time the Minister may require additional information for a report to Parliament. Schools will be notified if any additional information is required. Such notification will be provided at least three (3) months prior to the information being required.

Evidence of compliance

A registered non-government school must provide data to the Minister, if requested by the Minister in order to report to Parliament on the effectiveness of schooling in the State.

Such data from non-government schools will be provided to NESA in an online or appropriate electronic form unless otherwise agreed by NESA.

3.11 Schools with boarding facilities

If a registered non-government school provides boarding facilities, whether itself or by contractual agreement, the school must have policies and procedures that are satisfactory to ensure the safety and welfare of boarders.

A school that provides boarding facilities is one that regularly provides overnight

accommodation for students enrolled at the school, either itself or by contractual arrangement. Boarding facilities exclude accommodation provided away from school premises for day students during a brief school trip and 'home stay' accommodation.

The requirements that are appropriate to ensure the safety and welfare of boarders are contained in a set of minimum standards for the safety and welfare of boarders as described in requirements 3.11.1–3.11.8 of the Manual.

While the title and scope of policies and procedures that a school will have in place in relation to requirements 3.11.1–3.11.8 of the Manual will vary from school to school depending on the school's philosophy, ethos and practice, each requirement must be addressed within the totality of the school's policies and procedures.

3.11.1 A registered non-government school's aims and guiding principles in relation to boarding are available to stakeholders in a student's education and welfare

Stakeholders in a student's education include parents, guardians and NESA.

Evidence of compliance

A registered non-government school must have in place and implement, and make available to stakeholders in a student's education, policies and procedures that include:

- the aims and organisation of boarding at the school
- the enrolment policy, if different from the day school enrolment policy
- any special aspects of the school's boarding facilities, for example co-educational, weekday-only boarding
- a description of the facilities and support services provided for boarders
- how the school's policies for boarding relate to day school policies
- communication mechanisms.

3.11.2 Boarders are provided with accommodation that complies with legislative requirements

Evidence of compliance

A registered non-government school must:

- assess and monitor the standard and state of repair of boarding premises, buildings and facilities, taking into account the requirements of relevant legislation including the:
 - *Explosives Act 2003*
 - *Work Health and Safety Act 2011*
- undertake and maintain details of annual fire safety statements that comply with Part 9 Division 5 of the *Environmental Planning and Assessment Regulation 2000*
- maintain written evidence that any school premises and/or buildings first occupied after 2003 comply with all legislation relevant at the time of occupation
- maintain written evidence that any school premises and/or buildings that are the subject of a development application after 2003 comply with all legislation relevant at the time of occupation
- confirm that it has policies and procedures to meet the requirements of the *Disability*

Discrimination Act 1992 in terms of the school's boarding buildings and premises.

For buildings that are the subject of a development consent or erected since 1997, the school will have evidence of relevant council approval in relation to Class 3 of the BCA.

3.11.3 The rights and responsibilities of boarders are defined and respected

For schools with boarding facilities:

- Suspension is a temporary removal of a student from the boarding facilities that a student would normally use for a set period of time.
- Expulsion is the permanent removal of a student from the boarding facilities of one particular school.
- Exclusion is the act of preventing a student's admission to a number of schools. In extreme circumstances, the principal of a school may make a submission to an appropriate authority, or to other schools, recommending the permanent exclusion of a student from the registration system that the school is a member of, or from other schools.

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures that include:

- codes of conduct for members of the boarding community describing the:
 - rights and responsibilities of boarders
 - if relevant, staff supervision of any student leadership system in the boarding school organisation if it provides authority for students to discipline or direct other students at the school
- management of student behaviour including but not limited to processes for suspension, expulsion and exclusion that are based on procedural fairness
- a process for handling complaints that describes how matters of concern can be raised and a process for responding to those concerns.

3.11.4 Staff are trained and the school meets legislative requirements in relation to child protection

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures to:

- ensure that all staff directly involved with the supervision of boarders are informed annually of their legal responsibilities related to child protection and other relevant school expectations
- ensure that requirements to notify and investigate allegations of reportable conduct in compliance with the *Ombudsman Act 1974* are made known to staff annually
- ensure that the school meets the requirements of the *Child Protection (Working with Children) Act 2012* in relation to working with children check clearances for all persons in child-related work, as required
- ensure that the school has documented processes for being assured that any external provider accessed by the school complies with the *Child Protection (Working with*

Children) Act 2012

- respond to reportable matters in accordance with legislative requirements
- ensure that all staff who are mandatory reporters under the *Children and Young Persons (Care and Protection) Act 1998* are informed annually of their obligations and the manner in which the school expects them to comply
- set clear guidelines and expectations for stakeholders regarding complaints or allegations of staff misconduct or reportable conduct
- publish the school's complaint handling procedures regarding allegations of staff misconduct or reportable conduct
- ensure that all staff have up-to-date staff handbooks and undertake professional development as determined by the principal.

3.11.5 Risk of harm as defined in the *Children and Young Persons (Care and Protection) Act 1998* is minimised for boarders

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures to minimise the risk of harm that include supervision with specific reference to:

- identification of staff with allocated responsibility for students over a twenty-four (24) hour period
- procedures for monitoring the whereabouts of students over a twenty-four (24) hour period
- protocols and guidelines, including risk management, for boarders undertaking on-site and off-site activities
- protocols for leave and travel arrangements.

3.11.6 Boarders' physical wellbeing and development are provided for and monitored

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures to provide for and monitor boarders' physical wellbeing and development that include:

- supplying food that meets the Australian Dietary Guidelines
- catering that complies with the requirements of the *NSW Food Act 2003*
- facilities, personnel and programs for physical activity.

The school must also have in place and implement policies and procedures for health care including:

- twenty-four (24) hour access to emergency medical assistance
- training of all staff directly involved in the supervision of boarders to the equivalent of Provide First Aid (HLTAID003)
- monitoring the physical health of boarders
- consent from and notification of parents/guardians regarding the administering of first aid and medical care

- managing communicable and infectious diseases
- managing immunisation and screening
- distribution and monitoring of medication
- care of ill boarders
- ancillary health services, including facilities and personnel available on-site and off-site and how to access these services.

3.11.7 Boarders' personal development and emotional wellbeing are provided for and monitored

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures to provide for and monitor boarders' personal development and emotional wellbeing that include:

- personnel responsible for pastoral care
- identification of and support for students with special needs
- homework and access to assistance with homework
- access to counselling where required
- provision for parent/guardian–student communication.

3.11.8 Day-to-day management of the boarding accommodation and facilities protects boarders and meets legislative requirements

Evidence of compliance

A registered non-government school must have in place and implement policies and procedures to protect boarders that include:

- security of the boarding school and its students, buildings and facilities for twenty-four (24) hours each day
- response to serious incidents and emergencies.

4 Provisional Registration including Initial Registration

Provisional registration applies to new schools and new Year(s) of schooling in their first year of registration. This first period of registration is initial registration.

Provisional registration also applies as a sanction to established schools where NESA is satisfied that there are concerns about compliance with the registration requirements.

4.1 Initial registration

Newly registered non-government schools must meet the requirements of the Education Act upon commencement of operation.

It may not be possible for a proposed new school to provide evidence of compliance with all sections of the Education Act prior to commencement. It is expected, however, that the applicant will provide evidence of policies and procedures that will ensure compliance of the school with the requirements of the Education Act should the application be successful. If the application for initial registration is successful, the new school is required to meet all the requirements detailed in section 3 of the Manual and must, throughout its period of initial registration, maintain evidence of compliance with those requirements.

Based on the requirements described in section 3 of the Manual, the following evidence of capacity to comply is required for proposed new schools to be considered for initial registration.

For a school seeking initial registration of additional Years of schooling, the current compliance of the school with the registration requirements will be considered in assessing the school's application for initial registration.

Any difference in the description of initial registration requirements in this section and those described in section 3 is only intended to take account of the fact that compliance with some requirements cannot be demonstrated until the school begins operation. On commencing operation, the requirements in section 3 apply.

NESA may specify matters, in addition to but not inconsistent with the requirements listed in section 3, that NESA and the Minister may have regard to in determining whether the requirements for registration will be complied with at or in relation to a non-government school.

Section 53A of the Education Act states that the registration of a non-government school is subject to such conditions relating to the requirements for registration as the Minister may impose (whether at the time the school is registered or at any later time). Any such conditions will be specified in the school's certificate of registration. The Minister may not impose a condition on the registration of a non-government school unless NESA has made a written recommendation to the Minister that the condition be imposed.

Quality of student learning

In deciding whether the requirements of the Education Act are being complied with in relation to a registered non-government school, NESA will have regard to matters relating to the quality of student learning. Under the Education Act, such matters may include, but are not

limited to, the following:

- a) the standard of teaching of courses of study provided at the school,
- b) student engagement in learning at the school,
- c) any matters identified in a risk assessment conducted by NESA in relation to the school.

As well, NESA will have regard to its related functions under the TA Act. The TA Act provides, among other things, that NESA will:

- advise and assist other teacher accreditation authorities in accrediting persons under the TA Act
- monitor the accreditation process across all schools
- ensure that the professional teaching standards are applied fairly and consistently.

The standard of teaching of courses of study provided at a school will be assessed in relation to evidence demonstrating school-wide policies and consistent practices in areas identified by the *Australian Professional Standards for Teachers* as provided by the TA Act. The emphasis of this process is the collective standard of teaching provided by a school as opposed to the standard of any one teacher at the school.

Specific evidence that is directly related to the standard of teaching and student engagement in learning has been included in relation to the initial registration requirements for teaching staff (section 4.1.2 of this Manual), curriculum (section 4.1.3 and for accredited schools, section 6), facilities (section 4.1.5) and student welfare (section 4.1.6.2).

4.1.1 Legal entity

Evidence of capacity to comply

The proposed individual non-government school must provide evidence that the proposed proprietor is one of the types of legal entity approved by the Minister to operate an individual registered non-government school.

4.1.2 Staff

Evidence of capacity to comply

The proposed non-government school must:

- have in place a feasible workforce plan based on projected enrolment
- provide an assurance that all teaching staff who will be responsible for delivering the curriculum as described by Parts 1, 3, 7 and 8 of the Education Act will be accredited
- provide documented arrangements for having a teacher accreditation authority that has been approved under NESA's TAA Guidelines as published on the [NESA website](#)
- provide documentation in relation to how the school will implement the *Australian Professional Standards for Teachers* and other policies of NESA as provided by the TA Act, including:
 - processes for supporting teachers in attaining and maintaining accreditation, including the induction, mentoring and professional development of teachers
 - processes for improving the collective standard of teaching at the school, including professional collaboration aimed at improving teacher practices and student outcomes

- identify any course(s) that it intends to offer through study with outside tutor(s) in its first year of operation. Where this is the intention, documented guidelines must be in place that outline the process to be used to:
 - verify each outside tutor's capacity to teach a course
 - ensure that in accessing an outside tutor the proposed school would continue to comply with the requirements of the *Child Protection (Working with Children) Act 2012* in relation to working with children check clearances for all persons in child-related work, as required
 - ensure that NESA curriculum and, where relevant, assessment requirements will be met by each outside tutor
- identify any course(s) that it intends to outsource to external provider(s) in its first year of operation. Where this is the intention, documentation must be provided that includes:
 - an outline of the processes that would be used to determine the suitability of the provider(s) to deliver the course(s)
 - an outline of the processes to be used to ensure that the outsourced courses comprise a minority of each student's overall pattern of study for each Stage of learning
 - procedures to ensure that each outsourced provider complies with the *Child Protection (Working with Children) Act 2012* in relation to working with children check clearances for all persons in child-related work, as required
 - the respective responsibilities of the proposed school and possible external provider(s) including procedures that will be put in place to ensure that course(s) of study and, where relevant, assessment requirements will be met.

4.1.3 Curriculum

Evidence of capacity to comply

4.1.3.1 The proposed non-government school must:

- provide a summary of the proposed total number of teaching hours per Year/class and KLA/course
- provide an overview of the school's educational program indicating:
 - the scope and sequence of proposed learning/units of work in relation to outcomes of the NESA syllabus for each KLA/course for each Year
 - resources and equipment available for each KLA/course
 - an assessment plan indicating how students' performance in each KLA/course is to be assessed, monitored and recorded
 - the proposed process for reporting student achievement
 - the proposed process for maintaining evidence relating to the standard of teaching that includes:
 - consistency between the various elements of the school's curriculum including NESA syllabus outcomes, scope and sequence, teaching programs, assessment records and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
 - records of the progressive achievement of students over time

- records of the school's analysis of student achievement data to inform teaching and learning
- records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- the proposed process for maintaining evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- describe how the proposed school, if secondary and applying for registration only, will inform parents of students in writing each year that the proposed school will not be eligible to enter candidates for the RoSA and/or HSC and will indicate the consequences for potential candidates for that credential of the proposed school not being accredited.

4.1.3.2 If the proposed non-government school intends to apply to NESA to modify an outcome(s) of a NESA syllabus due to incompatibility with the proposed school's educational philosophy or religious outlook, additional documentation must be provided that includes:

- the specific NESA syllabus outcome(s) that are proposed to be modified
- the philosophical or religious reasons for proposing to modify the identified NESA syllabus outcome(s)
- the proposed modified educational outcome(s)
- how the identified NESA outcome(s) would be incompatible with the educational philosophy and/or religious outlook of the proposed school
- how the proposed modified outcome(s) are compatible with the educational philosophy and/or religious outlook of the proposed school
- how the proposed modified outcome(s) will be appropriate for potential students with respect to their level of achievement and needs
- how the proposed modified outcome(s) comply with the curriculum guidelines developed by NESA and approved by the Minister
- an overview of the proposed school's educational program indicating where the modified outcome(s) approved by NESA would occur in relation to the scope and sequence of learning/units of work referred to in section 4.1.3.1 above
- an assessment plan indicating how student achievement of any proposed modified outcome(s) would be assessed, monitored and recorded.

Modifications approved under this provision are not permitted to the curriculum for the RoSA or HSC.

In the event that NESA is unable to approve a modification because of an inconsistency between the modification sought and the curriculum guidelines, a review of that aspect of the curriculum guidelines may be requested.

4.1.3.3 If the proposed non-government school intends to deliver all or a significant part of the curriculum to its enrolled students in distance education mode, additional documentation must be provided which includes:

- the courses that it proposes to deliver on-site and by means of distance education
- policies and procedures for authenticating potential student work
- guidelines for people such as family or community members who may act as on-site supervisors of a student's distance education work
- policies and procedures in relation to providing a minimum of fifteen (15) days of 'residential school' sessions each school year for each potential distance education student undertaking all of their courses of study by distance education. The minimum number of days of 'residential school' sessions that the proposed school intends to provide for students undertaking less than a full program of study by means of distance education is to be calculated on a pro-rata basis
- policies and procedures in relation to providing additional 'residential school' sessions for students undertaking courses that include practical components
- policies and procedures in relation to teacher visits to students
- samples of the teaching programs for each course to be delivered by means of distance education, including teaching and learning activities that would be provided to students
- the proposed annual schedule for teaching programs and activities to be undertaken on the days of 'residential school' sessions
- the proposed annual schedule for additional 'residential school' sessions for courses that have a practical component
- the proposed procedures for retaining evidence relating to the quality of teaching and student learning.

4.1.3.4 If the proposed non-government school is applying for registration as a school providing education of a kind, or for children of a kind, documentation must be provided which:

- describes the children of a kind for whom it is proposed the school would provide an education
- explains how the proposed curriculum meets the needs of potential students
- outlines the proposed total number of teaching hours per Year/class for each course/learning area
- provides an overview of the proposed school's educational program indicating:
 - the scope and sequence of learning/units of work in relation to each course/learning area for each Year
 - resources and equipment available for each course/learning area
 - an assessment plan indicating how students' performance in each proposed course will be assessed, monitored and recorded
 - the proposed process for reporting student achievement
 - the proposed process for maintaining evidence relating to the standard of teaching that includes:
 - consistency between the various elements of the school's curriculum including scope and sequence, teaching programs, assessment records and samples of

student work

- records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
- records of the progressive achievement of students over time
- records of the school's analysis of student achievement data to inform teaching and learning
- records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- describes how the proposed school, if secondary and applying for registration only, will inform parents of students in writing each year that the proposed school will not be eligible to enter candidates for the RoSA and/or HSC and will indicate the consequences for potential candidates for that credential of the proposed school not being accredited.

Where a non-government school is applying for initial registration to provide education for children of foreign nationals, the teaching staff must hold qualifications that are deemed appropriate by the relevant education authority (or equivalent) to teach the curriculum being delivered.

4.1.4 Premises and buildings

Evidence of capacity to comply

The proposed non-government school must:

- provide written evidence that the proposed premises and buildings comply with all legislation relevant at the time of occupation
- provide written evidence that the proposed premises have approval from the local Council to be used for their intended purpose
- have documented policies to assess and monitor the standard and state of repair of proposed premises and buildings, making reference to current building requirements
- provide details of a fire safety statement of the proposed premises which demonstrates compliance with Part 9 Division 5 of the *Environmental Planning and Assessment Regulation 2000*
- confirm that it has policies and procedures to meet the requirements of the *Disability Discrimination Act 1992* in terms of the school's buildings and premises.

4.1.5 Facilities

Evidence of capacity to comply

The proposed non-government school must:

- have the facilities required for each course of study it proposes to deliver, taking into

account:

- the potential number of students for each course
- any specialist requirements of the course
- the range of student learning needs
- if the facilities will be provided off-site, an ongoing arrangement that ensures the availability of the off-site facilities for the duration of the course
- provide written evidence that the proposed facilities will comply with all relevant local council and government legislation
- have policies to assess and monitor the current standard and state of repair of proposed facilities, when established, taking into account the requirements of relevant legislation including the:
 - *Explosives Act 2003*
 - *Work Health and Safety Act 2011*.

4.1.6 Safe and supportive environment

Evidence of capacity to comply

4.1.6.1 The proposed non-government school will have in place documented policies and procedures to:

- ensure that staff who will have direct contact with students will be informed annually of their legal responsibilities related to child protection and other relevant school expectations
- ensure that requirements to notify and investigate allegations of reportable conduct in compliance with the *Ombudsman Act 1974* will be made known to the staff annually
- ensure that the school will comply with the requirements of the *Child Protection (Working with Children) Act 2012* in relation to working with children check clearances for all persons in child-related work at the school, as required
- ensure that evidence of working with children check clearances is maintained by the school for all persons in child-related work at the school as required under the *Child Protection (Working with Children) Act 2012*
- respond to reportable matters in accordance with legislative requirements
- ensure that all staff who are mandatory reporters under the *Children and Young Persons (Care and Protection) Act 1998* will be informed annually of their obligations and the process that the school will have in place in relation to mandatory reporting
- set clear guidelines and expectations for stakeholders regarding complaints or allegations of staff misconduct or reportable conduct
- publish the school's complaint handling procedures regarding allegations of staff misconduct or reportable conduct.

4.1.6.2 Within the totality of the proposed school's policies and procedures the proposed non-government school must have in place policies and procedures in relation to:

- security, with specific reference to:
 - students
 - proposed buildings and facilities
 - evacuation procedures

- supervision, with specific reference to protocols and guidelines, including risk management, for students undertaking onsite and offsite activities
- codes of conduct for members of the proposed school community, with specific reference to:
 - rights and responsibilities of students and staff within the proposed school's community
 - management of student behaviour
 - anti-bullying including contact information for School Liaison Police and/or Youth Liaison Officers and other support services available to the school community
 - if relevant, staff supervision of any student leadership system if it provides authority for students to discipline or direct other students at the school
 - management and reporting of serious incidents and emergencies
- complaints or grievances, with specific reference to processes for raising and responding to matters of concern identified by parents and/or students
- pastoral care, with specific reference to:
 - proposed structures and personnel responsible for pastoral care including access to counselling
 - proposed provision for the identification of and provision of support for students with special needs
 - health and the distribution and monitoring of medication
 - response to serious incidents and emergencies
- maintaining a student enrolment and attendance register
- student attendance, with specific reference to:
 - processes for monitoring attendance data
 - intervention strategies to improve unsatisfactory attendance, including implementing strategies designed to improve student engagement in school and learning
- communication, with specific reference to proposed formal and informal mechanisms that will be available between the proposed school and stakeholders interested in the student's education and wellbeing.

Where the proposed school intends to allow students to study with an outside tutor or undertake outsourced courses/subjects, policies and procedures must be in place and be appropriate to ensure the personal safety and welfare of such students and their personal and social development.

4.1.6.3 If the proposed school intends to deliver all or a significant part of the curriculum by means of distance education to its students, the proposed school must provide additional documentation that includes:

- evidence that it will make available to stakeholders in a student's education and welfare the school's guiding principles and general organisation including statements about:
 - school aims
 - enrolment policies
 - student welfare policies
 - staff roles and responsibilities

- communication mechanisms and processes for handling complaints
- learning and social support services provided for students
- assessment policies and procedures
- procedures to monitor students' personal and social development
- policies and procedures that will be appropriate to ensure the safety and welfare of students undertaking 'residential school' sessions where the students will be required to be accommodated away from home and the facilities/accommodation for such sessions will be provided by the proposed school itself or by contractual arrangement (excluding brief school trips and 'home stay' accommodation). Such policies and procedures must meet the standards for the safety and welfare of boarders (refer to sections 3.11.1 to 3.11.8 of the Manual)
- details of the proposed school's programs that focus on personal and social development
- structured experiences that focus on personal and social development at the 'residential school' sessions
- details of the proposed school's support personnel, such as a counsellor, who will assist with issues related to personal and social development as needed.

4.1.7 Discipline

Evidence of capacity to comply

4.1.7.1 The proposed non-government school will have in place policies and procedures related to the discipline of students, including but not limited to the suspension, expulsion and exclusion of students, that are based on procedural fairness

4.1.7.2 The proposed non-government school will have in place policies related to the discipline of students which:

- either expressly prohibit corporal punishment or clearly and exhaustively list the proposed school's discipline methods so as to plainly exclude corporal punishment
- do not explicitly or implicitly sanction the administering of corporal punishment by non-school persons, including parents, to enforce discipline at the proposed school.

4.1.8 Attendance

Evidence of capacity to comply

The principal of the proposed school must:

- describe the method it will use to maintain a register of enrolments that will include the following information for each student:
 - name, age and address
 - the name and contact telephone number of parent(s)/guardian(s)
 - date of enrolment and, where appropriate, the date of leaving the school and the student's destination
 - for students older than six (6) years, previous school or pre-enrolment situation
 - where the destination of a student below seventeen (17) years of age is unknown, evidence that the Department of Education (attendance@det.nsw.edu.au) has been notified of the student's full name, date of birth, last known address, last date of attendance, parents' names and contact details, an indication of possible destination,

other information that may assist officers to locate the student, and any known work health and safety risks associated with contacting the parents or student

- have in place policies and procedures to:
 - monitor the daily attendance/absence of students
 - identify absences from school and/or class(es)
 - follow up unexplained absences
 - notify parent(s) and/or guardian(s) regarding poor school and/or class attendance
 - transfer information about unsatisfactory attendance to student files
- describe the method it will use to maintain a register of daily attendance that will include the following information for each student:
 - daily attendance, which may be recorded by noting daily absences
 - absences
 - reason for absence
 - documentation to substantiate reason for absence.

Note: The common code approved by the Minister must be used

- have in place policies and procedures for exercising the Minister's delegation under section 25 of the Education Act
- describe the method it will use to maintain records of the exercise of the above delegation including copies of all certificates issued under the delegation
- describe the process it will use to retain the register of enrolments for a minimum of five (5) years before archiving
- describe the process it will use to retain the register of daily attendance for a minimum of seven (7) years after the last entry was made.

4.1.9 Management and operation of the school

Evidence of capacity to comply

The proposed non-government school must:

- provide assurance to NESAs that each person defined under the Education Act as a 'responsible person', and any other person or body exercising similar functions in relation to the school as those of a 'responsible person', will be a fit and proper person or body as specified in section 3.9.1 of the Manual
- demonstrate that it has policies and procedures in place in relation to the requirement for the school's 'responsible persons' and governing body to be fit and proper with specific reference to each 'responsible person' for the school signing a fit and proper statutory declaration prior to commencing as a 'responsible person' for the school and at least on an annual basis while the person continues to be a 'responsible person' for the school
- provide assurance to NESAs that any refusal to register, or cancellation of registration, under section 56 or 59, within five (5) years immediately prior to the lodgement of the application for registration has not been largely attributable to the actions of:
 - a 'responsible person' for the school or proposed 'responsible person', or
 - any other person or body exercising similar functions in relation to the management or operation of the school

- demonstrate that it has policies and procedures in place to ensure the proper governance of the proposed school including the policies and procedures specified in sections 3.9.3.1 to 3.9.3.6 of the Manual relating to:
 - a school charter or document identifying the governance structure, the respective authority of each role, a delegations schedule, maintenance of governance decisions and a code of conduct for 'responsible persons'
 - conflict of interest
 - related party transactions
 - professional learning and induction for 'responsible persons' as defined by the Education Act
 - external independent attestation audit of annual financial statements
- have in place documented processes by which:
 - the proprietor of the proposed school or, if the proprietor is a corporation, each director concerned in the management of the proposed school, and
 - each member of the governing body of the proposed school, and
 - the principal

will be informed of their responsibilities under the Education Act and any amendments to the Education Act, NESA requirements and any Regulations under the Education Act
- demonstrate financial viability as specified in section 3.9.4 of the Manual
- have in place processes for notifying NESA of the details of the 'responsible persons' for the school and for maintaining the currency of this information
- have in place processes by which NESA will be notified if the school moves or is sold
- have in place processes by which returns are made to NESA when changes occur to the school (refer to section 3.9.5 of the Manual).

4.1.10 Educational and financial reporting

Evidence of capacity to comply

The proposed non-government school must have policies and procedures that can ensure:

- its participation in annual reporting to publicly disclose the educational and financial performance measures and policies of the school as identified by the Minister (refer to section 3.10.1 of the Manual). The school's annual report must be provided in an online or appropriate electronic form to NESA unless otherwise agreed by NESA
- it will provide data to the Minister that is relevant to the Minister's annual report to Parliament on the effectiveness of schooling in the State (refer to section 3.10.2 of the Manual). Such data from schools will be provided to NESA in an online or appropriate electronic form unless otherwise agreed by NESA.

4.1.11 Schools with boarding facilities

If the proposed non-government school intends to provide boarding facilities, whether itself or by contractual arrangement, the proposed school must provide policies and procedures that indicate it can meet the standards for the safety and welfare of boarders (refer to sections 3.11.1 to 3.11.8 of the Manual).

4.2 Concern about compliance with the requirements for registration

4.2.1 Provisional registration

Inspectors consider any documentation provided by a school and observations from an inspection visit in order to form opinions about compliance with the requirements of the Education Act in relation to registration. When it is an Inspector's judgement that there are concerns that the school may not comply with the requirements, the Inspector will discuss these concerns with the principal (or equivalent) and provide an opportunity for the school to provide further evidence of compliance.

If, following consideration of any further evidence of compliance the school provides, the Inspector continues to have concerns that the school may not comply with the requirements of the Education Act in relation to registration, the Inspector will prepare a report that includes advice that the school be placed on provisional registration.

Where advice is provided to place an existing non-government school on provisional registration, the proprietor and the principal (or equivalent) of the school will be given written notice detailing those registration requirements with which, in the opinion of the Inspector, there are concerns that the school may not comply.

The proprietor and the principal (or equivalent) will be provided with the opportunity to make written comment to the Registration Committee regarding the advice of the Inspector.

Following consideration of the Inspector's advice and any written comment from the proprietor and/or principal (or equivalent) of the school, the Registration Committee, under delegation, will determine whether it intends to make a recommendation to the Minister that the school should be placed on provisional registration until such time as the situation is resolved. The proprietor and the principal (or equivalent) will be informed in writing of the Registration Committee's intention to recommend to the Minister that the school be placed on provisional registration and may seek a review of the decision (refer to section 9.2 of the Manual).

If the Registration Committee or, following an internal review, the Board, is satisfied that there are concerns as to whether the school is complying with the requirements of the Education Act in relation to registration, the Registration Committee or, following an internal review, the Board, may recommend to the Minister that the school be placed on provisional registration.

In these circumstances, under the Education Act, the Minister may issue a certificate of provisional registration for the school that specifies the period of provisional registration. This may mean that the period of registration of the school is reduced. If the school is placed on provisional registration, parents of students at the school must be notified in writing by the school of the provisional registration status of the school and the consequences of the registration status.

If, at any time, the requirements of the Education Act in relation to registration are found not to be complied with, the Registration Committee, under delegation from the Board, or, following an internal review, the Board, will recommend to the Minister that the registration of a non-government school be cancelled (refer to section 8 of the Manual).

4.2.2 Conditions of registration

Section 53A of the Education Act states that the registration of a non-government school is subject to such conditions relating to the requirements for registration as the Minister may impose (whether at the time the school is registered or at any later time). Any such conditions will be specified in the school's certificate of registration. The Minister may not impose a condition on the registration of a non-government school unless NESAs has made a written recommendation to the Minister that the condition be imposed.

NESA may recommend that conditions of registration be imposed when it has been identified that the school may not be meeting the requirements for registration and NESAs is satisfied that the school has the capacity to address the compliance concern.

Typically, recommendations relating to conditions of registration would follow an inspection process where the school has been provided with the opportunity to address the compliance concern and the school has yet to address that concern to the satisfaction of the Inspector.

If an Inspector decides to recommend that conditions of registration be imposed, the Inspector will prepare a report making a recommendation that specifies the particular condition, the reason for the recommendation and the timeframe associated with the recommended condition. The recommended conditions will respond to, and be commensurate with, the specific nature and extent of the compliance concerns and any risk factors associated with the school.

The proprietor and principal (or equivalent) of the school will be given written notice of the report and recommendation.

The proprietor and principal (or equivalent) will be provided with the opportunity to make written comment to the Registration Committee regarding the advice of the Inspector.

Following consideration of the Inspector's advice and any written comment from the proprietor and/or principal (or equivalent) of the school, the Registration Committee, under delegation, will determine whether it intends to make a recommendation to the Minister that conditions be placed on the school's registration.

The proprietor and the principal (or equivalent) will be informed in writing of the Registration Committee's intention to recommend to the Minister that conditions be placed on the school's registration and that a review of the decision may be sought (refer to section 9.3 of the Manual).

If the Registration Committee or, following an internal review, the Board is satisfied that there are concerns as to whether the school is complying with the requirements of the Education Act in relation to registration, and that the recommended conditions of registration are warranted, the Registration Committee or, following an internal review, the Board may recommend to the Minister that conditions be placed on the school's registration.

In these circumstances, under the Education Act, the Minister may issue a certificate of registration for the school that specifies the conditions of registration.

Whenever conditions are imposed on a school's registration, it is also a condition of registration that the school publish the conditions of registration using the exact wording specified in the school's certificate of registration and any associated annexure. NESAs may also publish the conditions on its website.

If, at any time, the requirements of the Education Act in relation to registration are found not to be complied with, the Registration Committee, under delegation from the Board, or, following an internal review, the Board will recommend to the Minister that the registration of a non-government school be cancelled (refer to section 8 of the Manual).

NESA has published Guidelines for [Conditions of Registration](#) on the NESA website to provide further guidance for schools and some example conditions.

5 Requirements for Accredited Non-government Schools

Registered non-government schools that are accredited must meet curriculum requirements that are additional to those detailed in section 3 of this Manual.

In deciding whether the requirements of the Education Act are being complied with in relation to a registered non-government school, NESA will have regard to matters relating to the quality of student learning. Under the Education Act, such matters may include, but are not limited to, the following:

- the standard of teaching of courses of study provided at the school having regard to the *Australian Professional Standards for Teachers* as provided by the TA Act
- student engagement in learning at the school
- any matters identified in a risk assessment conducted by NESA in relation to the school.

Accreditation for Years 7 to 10 enables a school to enter candidates for the RoSA.

Accreditation for Years 11 to 12 enables a school to enter candidates for the HSC.

This section of the Manual details the requirements that all accredited schools must meet and the evidence of compliance that schools must maintain for the period of their accreditation.

The requirements and the evidence of compliance relate to:

- the curriculum for the RoSA
- the curriculum for the HSC
- the quality of the education program.

The Education Act makes provision for requirements for the RoSA and the HSC to be prescribed by Regulations and developed by NESA. These requirements are outlined on the ACE website.

The maximum period for which accreditation may be renewed is five (5) years.

5.1 Curriculum for the Record of School Achievement

The curriculum for the Record of School Achievement provided by a registered and accredited non-government school must meet the requirements of the Education Act.

The curriculum from Year 7 to Year 10 for students who are candidates for the RoSA must:

- meet the study requirements for each key learning area as detailed on the ACE website, and
- be taught in accordance with a syllabus developed by NESA and approved by the Minister.

The requirements for the RoSA are detailed on the ACE website. The ACE website also states the rules and procedures for the RoSA. Schools must refer to these requirements to ensure the eligibility of students for the RoSA.

Schools must refer to the ACE website for details of their responsibilities in relation to the

requirements for the award of the RoSA, the RoSA curriculum, satisfactory completion of a course and rules concerning attendance and appeals.

NESA mandatory curriculum requirements for the award of a RoSA are detailed on the *ACE* website. This core curriculum for the RoSA is mandatory for all accredited non-government schools.

Evidence of compliance

A registered and accredited non-government school must have in place and implement policies and procedures to monitor the compliance of each student with the requirements for eligibility for the award of the RoSA credential.

A registered and accredited non-government school must maintain documentation for each calendar year of the current accreditation period that provides evidence of:

- timetables showing the allocation of time and teachers for each Year/class
- the total number of hours allocated to each course
- an overview of the educational program indicating the scope and sequence of learning/units of work mapped against the content and outcomes of the relevant NESA syllabus for each course
- assessment policies and procedures which comply with the requirements documented on the *ACE* website and in NESA Official Notices. These policies should include statements of school procedures and records relating to the allocation of grades in each Year 10 course
- confirmation that the school has policies for disability provisions in accordance with the *ACE* website
- an overview of the process for reporting student achievement
- the standard of teaching, that includes:
 - consistency between the various elements of the school's curriculum including NESA syllabus outcomes, scope and sequence, teaching programs, assessment records and schedules, and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
 - records of the progressive achievement of students over time
 - records of the school's analysis of student achievement data to inform teaching and learning
 - records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students.

A school must have resources and equipment available for providing the required KLA/courses.

For each calendar year the school must maintain, until the end of that calendar year, documentation that includes:

- teaching programs for each unit of work for each course for each Year/class. The units of work should correspond to those identified in the scope and sequence for that year
- samples of student work that relate to the teaching program for that year.

5.2 Curriculum for the Higher School Certificate

5.2.1 The curriculum for the Higher School Certificate provided by a registered and accredited non-government school must meet the requirements of the Education Act

The requirements, rules and procedures for the HSC are detailed on the *ACE* website and in NESAs Official Notices. Schools must refer to these rules and procedures to ensure the eligibility of students for the HSC credential.

Schools must refer to the *ACE* website and NESAs Official Notices for details of their responsibilities in relation to the requirements for the award of the HSC, including satisfactory completion of a course and appeals.

Evidence of compliance

A registered and accredited non-government school must have in place and implement policies and procedures to monitor the compliance of each student with the requirements for eligibility for the award of the HSC.

A registered and accredited non-government school must maintain documentation for each calendar year of the current accreditation period that provides evidence of:

- timetables showing the allocation of time and teachers for each Year/class
- the total number of hours allocated to each Preliminary and HSC course
- courses of study for each student for each year that comply with a pattern of study for Year 11 and Year 12 as described on the *ACE* website for candidates for the HSC (*ACE* 8005)
- an overview of the educational program indicating the scope and sequence of learning/units of work mapped against the content and outcomes of the relevant NESAs syllabus for each course
- assessment policies and procedures which comply with the requirements documented on the *ACE* website and in NESAs Official Notices. These policies should include statements of school procedures relating to the allocation of grades in each Preliminary course
- confirmation that the school has policies for disability provisions in accordance with the *ACE* website
- an overview of the process for reporting student achievement
- the standard of teaching, that includes:
 - consistency between the various elements of the school's curriculum including NESAs syllabus outcomes, scope and sequence, teaching programs, assessment records and schedules, and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning

activities

- records of the progressive achievement of students over time
- records of the school's analysis of student achievement data to inform teaching and learning
- records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across varying student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students.

The assessment policies must include statements of school procedures relating to:

- organisational details of the school's assessment program for each course, giving the number and types of assessment tasks, components and weightings, and scheduling of the tasks
- marking, recording and reporting student achievement in assessment tasks
- administrative arrangements associated with absence from an assessment task, late submission of tasks due to illness or misadventure, malpractice and invalid or unreliable tasks
- student appeals against assessment rankings
- 'N' determinations
- providing students with written advice about the school's requirements for assessment in each course.

A school must have resources and equipment available for providing the required KLA/courses.

For each calendar year the school must maintain, until the end of that calendar year, documentation that includes:

- teaching programs for each unit of work for each course for each Year/class. The units of work should correspond to those identified in the scope and sequence for that year
- samples of student work that relate to the teaching program for that year.

5.2.2 Conditional accreditation of non-government schools for the Record of School Achievement that are registered for Years 11 and 12 only and accredited for the Higher School Certificate

A number of non-government schools are registered for Years 11 and 12 only and are accredited for the HSC. These schools were not accredited for and, therefore, did not present candidates for the RoSA.

The abolition of the School Certificate in 2011 and the introduction of the RoSA as a cumulative credential that may be awarded to school leavers who complete Year 10 from 2012 or subsequently during Years 11 and 12 means that non-government schools registered for Years 11 and 12 only and accredited for the HSC must also be accredited for the RoSA under

certain conditions.

These conditions are that:

- a) such accreditation is for the strictly limited purpose of entering students as candidates for the RoSA who have met all the requirements for the award of a RoSA except for the NESA requirement that the student has left school
- b) any student entered as a candidate for the RoSA during Years 11 and 12 at the school must have met all NESA requirements for the award of a RoSA except for the NESA requirement that the student has left school.

A non-government school not otherwise accredited for the RoSA that does not meet these conditions is not eligible to present candidates for the RoSA for students enrolled in Years 11 and 12 and must publicly disclose this ineligibility to parents of children intending to be enrolled or currently enrolled at the school.

Evidence of compliance

Evidence of compliance with these conditions is certification from the principal of the school previously attended by the student(s) concerned in Year 10 that the student(s) have met all NESA requirements for the award of a RoSA except for the NESA requirement that the student has left school. This certification will take the form of NESA records being updated by the school previously attended by the student(s) concerned. Only principals of government secondary schools or non-government schools registered for Year 10 and accredited for the RoSA are authorised to make such certification.

A non-government school that does not meet these conditions for eligibility to enter candidates for the RoSA must publicly disclose this ineligibility to parents of children intending to be enrolled or currently enrolled at the school in the school's prospectus, on the school's website or other reasonable equivalent.

5.3 Quality of the educational program

In deciding whether the requirements of the Education Act relating to the courses of study for the RoSA and/or HSC are being complied with at a registered and accredited non-government school, the Education Act requires that NESA assess the quality of the educational program. The main matters that NESA will have regard to when assessing the quality of the educational program are:

- the record (if any) of achievement of students
- the standard of teaching of courses at the school
- student engagement in learning
- the facilities provided at the school for the courses.

5.3.1 Registered and accredited non-government schools will have in place processes by which they can record achievement of students

The indicators of students' achievement include:

- results of external examinations such as the HSC and NAPLAN

- qualitative and/or quantitative internal and/or external assessment results that can be used to assess a cohort's improvement over time
- samples of student work
- student engagement in learning:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students.

Evidence of compliance

A registered and accredited non-government school will have in place and implement documented processes for maintaining records to demonstrate student achievement and student engagement in learning over the period of accreditation.

5.3.2 Registered and accredited non-government schools will have in place processes by which they can demonstrate the standard of teaching of courses at the school

Registered and accredited secondary schools may provide courses of study themselves or by accessing outside tutors and/or external providers. Where a registered and accredited school accesses an outside tutor and/or external provider for a RoSA and/or HSC course, the school must refer to the *ACE* website and NESA Official Notices which outline the requirements that the school must meet for the purpose of each of the credentials.

The standard of teaching of courses provided by the school will be demonstrated by:

- the consistency between:
 - syllabus outcomes
 - scope and sequence of learning/units of work
 - teaching programs and learning activities
 - assessment records and schedules
 - samples of student work
- student evaluation and teacher reflection/evaluation of the effectiveness of teaching and learning activities
- progressive achievement of students over time
- the school's analysis of student achievement data to inform teaching and learning.

Evidence of compliance

A registered and accredited non-government school will have in place and implement documented processes for maintaining records over the period of accreditation to demonstrate the standard of teaching of courses at the school.

For each student undertaking one or more courses that have been outsourced through an outside tutor and/or external provider, the school will have in place and implement documented processes to maintain records:

- to demonstrate that each student's overall pattern of study meets the eligibility requirements for the RoSA or HSC

- of a written statement from the outside tutor/external provider that the course will be taught in accordance with NESA syllabuses
- for each RoSA and HSC course, a written statement that the assessment program for the course delivered by the outside tutor/external provider will meet the requirements of the ACE website and NESA Official Notices.

5.3.3 Registered and accredited non-government schools will have in place processes by which they can demonstrate that the facilities provided at the school are adequate for the courses taught at the school

In addition to the requirements detailed in section 3.5 of the Manual, registered and accredited non-government schools need to provide assurance that the educational facilities are adequate to meet all mandatory requirements for the courses of study throughout their registration period.

Evidence of compliance

A registered non-government school must:

- have the facilities required for each course of study offered for the RoSA and/or HSC, taking into account:
 - the number of students undertaking each course
 - any specialist requirements of the course
 - the range of student learning needs
 - if the facilities are off-site, an ongoing arrangement that ensures the availability of the off-site facilities for the duration of the course.

6 Provisional Accreditation including Initial Accreditation

Provisional accreditation applies to new schools and established schools who are newly approved for accreditation in their first year of accreditation. The first period of accreditation is initial accreditation.

Provisional accreditation also applies to established schools where NESAs are satisfied that there are concerns about compliance with the requirements of the Education Act relating to the RoSA and/or HSC.

In deciding whether the requirements of the Education Act are being complied with in relation to a registered non-government school, NESAs will have regard to matters relating to the quality of student learning. Under the Education Act, such matters may include, but are not limited to, the following:

- the standard of teaching of courses of study provided at the school having regard to the *Australian Professional Standards for Teachers* as provided by the TA Act
- student engagement in learning at the school
- any matters identified in a risk assessment conducted by NESAs in relation to the school.

6.1 Initial accreditation

Newly accredited non-government schools must meet the requirements of the Education Act upon commencement of operation.

It may not be possible for a proposed new school to provide evidence of compliance with all sections of the Education Act relating to the RoSA and/or HSC prior to commencement. It is expected, however, that the applicant will provide evidence of policies and procedures that will ensure compliance of the school with the requirements of the Education Act should the application be successful. If the application for initial accreditation is successful, the school is required to meet all the requirements detailed in section 5 of this Manual and must, throughout its period of initial accreditation, maintain evidence of compliance with those requirements.

Based on the requirements described in section 5 of this Manual, the following evidence of capacity to comply is required for proposed new schools or established registered schools to be considered for initial accreditation.

If relevant, a school's current compliance with the requirements for accreditation will be considered in assessing an application for initial accreditation for courses leading to the award of the RoSA or the HSC.

Any difference in the description of initial accreditation requirements in this section and those described in section 5 is only intended to take account of the fact that compliance with some requirements cannot be demonstrated until the school begins to operate as an accredited school. On commencing operation, the requirements in section 5 apply.

6.1.1 Record of School Achievement

Evidence of capacity to comply

A proposed non-government school must have in place policies and procedures to monitor the compliance of each student with the requirements for eligibility for the award of the RoSA.

A proposed non-government school must provide evidence of:

- the total number of hours it intends to allocate to each course
- the scope and sequence of proposed learning/units of work mapped against the content and outcomes of the relevant NESA syllabus for each course
- resources and equipment that will be available for each KLA
- assessment policies and procedures which comply with the requirements documented on the *ACE* website and in NESA Official Notices. These policies should include statements of the proposed procedures relating to the allocation of grades based on Course Performance Descriptors in each RoSA course
- confirmation that the school will have policies for disability provisions in accordance with the *ACE* website
- an overview of the proposed process for reporting student achievement
- an overview of the proposed process for maintaining evidence relating to the standard of teaching, that includes:
 - consistency between the various elements of the school's curriculum including NESA syllabus outcomes, scope and sequence, teaching programs, assessment records and schedules, and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
 - records of the progressive achievement of students over time
 - records of the school's analysis of student achievement data to inform teaching and learning
 - records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- an overview of the proposed process for maintaining evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students.

6.1.2 Higher School Certificate

Evidence of capacity to comply

A proposed non-government school must have in place policies and procedures to monitor the compliance of each student with the requirements for eligibility for the award of the HSC.

A proposed non-government school must provide evidence of:

- the total number of hours to be allocated to each Preliminary and HSC course

- the scope and sequence of proposed learning/units of work mapped against the content and outcomes of the relevant NESA syllabus for each course
- resources and equipment that will be available for each KLA
- assessment policies and procedures which comply with the requirements of the *ACE* website and NESA Official Notices. These policies should include statements of school procedures relating to the allocation of grades in each Preliminary course.

The assessment policies should include statements of the proposed procedures relating to:

- organisational details of the proposed assessment program for each course, giving the number and types of assessment tasks, components and weightings, and the scheduling of the tasks
- marking, recording and reporting student achievement in assessment tasks
- administrative arrangements associated with absence from an assessment task, late submission of tasks due to illness or misadventure, malpractice and invalid or unreliable tasks
- student appeals against assessment rankings
- 'N' determinations
- providing students with written advice about the school's requirements for the assessment in each course
- confirmation that the school will have policies for disability provisions in accordance with the *ACE* website
- an overview of the proposed process for reporting student achievement
- an overview of the proposed process for maintaining evidence relating to the standard of teaching, that includes:
 - consistency between the various elements of the school's curriculum including NESA syllabus outcomes, scope and sequence, teaching programs, assessment records and schedules, and samples of student work
 - records of teacher reflection/evaluation of the effectiveness of teaching and learning activities
 - records of the progressive achievement of students over time
 - records of the school's analysis of student achievement data to inform teaching and learning
 - records of teaching strategies to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students
- an overview of the proposed process for maintaining evidence relating to student engagement in learning, that includes records of:
 - students' learning progress over time
 - teaching strategies and programs designed and implemented to meet the learning needs of students across a variety of student backgrounds and learning profiles, including Aboriginal and Torres Strait Islander students.

6.1.3 Quality of the educational program

Evidence of capacity to comply

A proposed non-government school must provide evidence of:

- a documented process for maintaining records to demonstrate student achievement
- a documented process for maintaining records to demonstrate the standard of teaching of courses at the school such as evidence of:
 - the consistency between syllabus outcomes, the scope and sequence of learning/units of work, teaching programs and learning activities, assessment records and schedules, and samples of student work
 - student evaluation and teacher reflection/evaluation of teaching and learning activities
 - progressive achievement of students over time
 - the school's analysis of student achievement data to inform teaching and learning
- a documented process for maintaining records to demonstrate student engagement in learning
- the facilities required for each of the courses it intends to offer, taking into account:
 - potential student numbers
 - any specialist requirements of the course
 - the range of student learning needs
 - if the facilities will be off-site, an ongoing arrangement that ensures the availability of the off-site facilities for the duration of the course.

6.2 Concern about compliance with the requirements for accreditation

Inspectors consider any documentation provided by the school and observations from an inspection visit in order to form opinions about compliance with the requirements of the Education Act relating to the accreditation of the RoSA and/or HSC. When it is an Inspector's judgement that there are concerns as to whether the school may comply with the requirements, the Inspector will discuss these concerns with the principal (or equivalent) and provide an opportunity for the school to provide further evidence of compliance.

If, following consideration of any further evidence of compliance the school provides, the Inspector continues to have concerns that the school may not comply with the requirements of the Education Act in relation to accreditation for the RoSA and/or HSC, the Inspector will prepare a report that includes advice that the school be placed on provisional accreditation.

Where advice is provided to place an existing non-government school on provisional accreditation, the proprietor and principal (or equivalent) of the school will be given written notice detailing those accreditation requirements with which, in the opinion of the Inspector, there are concerns regarding compliance of the school with the requirements of the Education Act.

The proprietor and the principal (or equivalent) will be provided with the opportunity to make written comment to the Registration Committee regarding the advice of the Inspector.

Following consideration of the Inspector's advice and any written comment from the proprietor and/or principal (or equivalent) of the school, the Registration Committee, under delegation from the Board, will determine whether it intends to make a recommendation to the Board that the school should be placed on provisional accreditation until such time as the situation is resolved. The proprietor and the principal (or equivalent) will be informed of the Registration Committee's intention to recommend to the Board that the school be placed on provisional accreditation and may seek a review of the decision (refer to section 9.2 of the Manual).

If the Registration Committee or, following an internal review, the Board, is satisfied that there are concerns as to whether the school is complying with the requirements in relation to accreditation for the RoSA and/or HSC, under the Education Act, the Registration Committee or, following an internal review, the Board, may issue a certificate of provisional accreditation for the school that specifies the period of provisional accreditation.

This may mean that the period of accreditation of a school has been reduced. If the school is placed on provisional accreditation, parents of students at the school must be notified in writing by the school of the provisional accreditation status of the school and the consequences of the accreditation status.

If, at any time, the requirements of the Education Act in relation to accreditation are found not to be complied with, the Registration Committee, under delegation from the Board, or, following an internal review, the Board, will cancel the accreditation of a non-government school by giving written notice to the proprietor or principal of the school (refer to section 8 of the Manual).

7 Registration and Accreditation Procedures

The following information provides details about the procedures involved in:

- applying for initial registration/initial accreditation of a proposed new school
- applying for renewal of registration/accreditation
- applying for initial registration/initial accreditation of proposed new Year(s) of schooling
- providing a return to NESA
- applying for approval from NESA to modify a NESA syllabus.

7.1 Submission of applications and documentation

All schools applying for registration/accreditation need to submit the appropriate application form(s) via the online facility, [RANGS Online](#).

Applications consist of the appropriate electronic form (eForm) and attached documentation relevant to the application.

Schools may prefer to provide some or all of the relevant documentation supporting the application by housing the documents electronically on the school's intranet and granting access to NESA for the purpose of assessing this documentation. In this case, the eForm application still needs to be submitted via [RANGS Online](#) and arrangements made with the NESA School Registration and Accreditation Directorate for accessing the supporting documentation.

For support in accessing and using [RANGS Online](#), schools can contact the School Registration and Accreditation Directorate on telephone (02) 9367 8866.

7.2 Overview of the NESA process

The registration/accreditation process includes:

- consideration of the written application and supporting documentation
- a site inspection and inspection visit by at least one Inspector
- compilation of a report and advice based on the application, submitted documentation and visit
- submission of the report, advice and recommendation to the Registration Committee
- in the case of registration, submission of recommendations to the Minister for approval
- in the case of accreditation, a decision by the Registration Committee
- notification of the outcome of the application to the school and, where the application is successful, issuing of relevant certificate(s).

(NB All references in this Manual to the Registration Committee making recommendations to the Minister concerning registration or decisions concerning accreditation are based on the Registration Committee exercising delegation from NESA on registration and accreditation matters within prevailing NESA policies. The process of review by NESA of decisions or recommendations made by the Registration Committee is described at section 9 of the Manual.)

7.3 Procedures

7.3.1 Risk assessment

Under sections 50 and 55 of the Education Act, NESAs may request the principal or proprietor of a school or proposed school to provide such documentary or other evidence in support of an application for initial or renewed registration as NESAs consider necessary based on an assessment of risk.

The breadth and depth of the material to be uploaded by schools with an application for registration, and the material to be reviewed during an inspection, will vary according to the outcome of the risk assessment process.

As part of the risk assessment process, applicants for initial registration and principals of currently registered schools will be required to certify compliance with the requirements for registration and, if relevant, accreditation.

In addition to the certification, schools assessed as lower risk will be required to provide material demonstrating a basic level of assurance while schools assessed as higher risk will be required to provide materials related to the risk profile of the school.

The factors considered as part of the risk assessment process relate to the determinants of student learning and the school's history of compliance including factors such as:

- the accreditation and experience of teachers
- the standard of teaching
- the quality of the educational program
- recent school history of compliance
- enrolment and attendance
- changes to and complexity of the management and operational context of the school.

A risk assessment is based on the information available at the time the assessment is conducted.

At any time, including during an inspection process, the risk profile of a school can change in response to emerging information. Changes to the risk profile of a school may impact on the documentation required as part of an inspection process.

The process of having regard to risk indicators to inform the application and registration process is separate to the process of forming an opinion about compliance. The presence of risk indicators may or may not be an indicator of actual compliance.

7.3.2 Application for initial registration/accreditation of a proposed new non-government school

The following procedure applies to applications for:

- proposed new individual non-government schools applying for initial registration/accreditation
- proposed new individual non-government schools applying for initial exemption from registration

- existing non-government schools which propose to amalgamate to form a proposed new individual school
- an existing school which proposes to separate to form two or more new schools.

New proposed schools and amalgamated schools may not commence operating until they receive a Certificate of Registration or a Certificate of Exemption from Registration from the Minister and, if appropriate, a Certificate of Accreditation from the Chief Executive Officer of NESAs.

Under the Education Act, the maximum period for initial registration/accreditation or initial exemption from registration that may be granted to a new school is twelve (12) months.

A proposed new non-government school applying for initial registration/accreditation or initial exemption from registration, or existing non-government schools that propose to amalgamate to form a new school, must submit to NESAs, via [RANGS Online](#), an *Application for initial registration/accreditation of a proposed new non-government school* not later than 31 March preceding the calendar year in which the proposed proprietor wishes to commence operation of the school.

NESAs will:

- acknowledge receipt of the application
- arrange for an Inspector to:
 - examine the submitted application and documentation stipulated in the application form
 - contact the proprietor of the proposed new school to identify the evidence of compliance that the proposed school will need to make available during the visit
 - visit the proposed site and examine any evidence of compliance requested by the Inspector
 - request such documentary evidence in support of the application as NESAs, based on a risk assessment, considers necessary. NESAs is not required to provide the report to the Minister if any such requested information is not provided
 - write an inspection report and make recommendations
 - forward the inspection report to the proposed proprietor and principal elect (if appointed) for comment
 - submit the inspection report, advice and recommendation and the comments from the proposed proprietor and principal elect (if appointed) to the Registration Committee. This final process may take up to six (6) weeks
- submit endorsed recommendations to the Minister
- forward the relevant certificate(s) if the application is successful.

7.3.3 Application for renewal of registration/accreditation

The following procedure applies to:

- individual registered or provisionally registered non-government schools applying for renewal of registration
- individual non-government schools with exemption from registration or exemption from provisional registration applying for renewal of exemption from registration

- individual accredited or provisionally accredited non-government schools applying for renewal of accreditation.

The maximum period an existing registered/accredited non-government school can be granted registration/accreditation is five (5) years.

An existing non-government school applying for renewal of its registration, renewal of its exemption from registration and/or renewal of accreditation must submit to NESA, via [RANGS Online](#), an *Application for renewal of registration/accreditation* not later than 31 March in the calendar year in which the current registration/exemption from registration/accreditation is due to expire.

NESA will:

- acknowledge receipt of the application
- arrange for an Inspector to:
 - examine the submitted application and documentation stipulated in the application form
 - contact the principal (or equivalent) of the non-government school to identify the evidence of compliance that the school will need to make available during the visit
 - visit the school and examine any evidence of compliance requested by the Inspector
 - write an inspection report and make recommendations
 - forward the inspection report to the proprietor and principal (or equivalent) for comment
 - submit the inspection report, advice and recommendation and the comments from the proprietor and principal (or equivalent) to the Registration Committee. This final process may take up to six (6) weeks
- submit endorsed recommendations to the Minister
- forward the relevant certificate(s) if the application is successful.

7.3.4 Application for initial registration/accreditation of proposed new Year(s) of schooling or initial accreditation of a school with registration only

The following procedure applies to applications for:

- existing individual registered or initially registered non-government schools applying for initial registration of new Year(s) of schooling
- existing individual non-government schools that have been granted exemption from registration or exemption from provisional registration applying for initial exemption from registration of new Year(s) of schooling
- existing individual accredited or initially accredited non-government schools applying for initial accreditation of new Year(s) of schooling
- initial accreditation of an existing school that has registration only.

The maximum period for initial registration/accreditation of new Year(s) of schooling that can be granted for a non-government school is up to twelve (12) months.

An existing registered/accredited non-government school applying for initial registration, initial exemption from registration and/or initial accreditation for new Year(s) or for existing Year(s)

that are currently registered only must submit to NESA, via [RANGS Online](#), an *Application for initial registration and accreditation* not later than 31 March preceding the calendar year in which the proprietor wishes to commence operation of the new Year(s).

NESA will:

- acknowledge receipt of the application
- arrange for an Inspector to:
 - examine the submitted application and documentation stipulated in the application form
 - contact the principal (or equivalent) of the non-government school to identify the evidence of compliance that the school will need to make available during the visit
 - visit the school and examine any evidence of compliance requested by the Inspector
 - write an inspection report and make recommendations
 - forward the inspection report to the proprietor and principal (or equivalent) for comment
 - submit the inspection report, advice and recommendation and the comments from the proprietor and principal (or equivalent) to the Registration Committee. This final process may take up to six (6) weeks
- submit endorsed recommendations to the Minister
- forward the relevant certificate(s) if the application is successful.

7.3.5 Returns to NESA

The following procedure applies to returns to NESA in relation to the requirements for registration and/or accreditation as described in section 3.9.5 of the Manual.

The school must submit to NESA, via [RANGS Online](#), a *Notification form*.

The time frame for submitting the notification varies in relation to the type of return to be made. Section 3.9.5 of the Manual details the required times for submission.

NESA will:

- acknowledge receipt of the relevant form
- arrange for an officer from NESA to:
 - examine the submitted form and any other submitted documentation
 - contact the school to identify whether further evidence of compliance is required and whether a visit to the school will be undertaken
 - examine any evidence of compliance and, where applicable, visit the school and examine any further evidence of compliance
 - where applicable, write an inspection report and make recommendations, forward the inspection report to proprietor and principal for feedback, submit the inspection report to the Registration Committee. This final process may take up to six (6) weeks
- where applicable, submit recommendations to the Minister
- where applicable, forward the relevant certificate(s) to the school.

7.3.6 Application for approval from NESA to modify part of a NESA syllabus

The following procedure applies to a school or a proposed school seeking approval from NESA to modify the outcomes of part of a NESA syllabus. Approval must be sought nine (9) months prior to the intended implementation date:

- Where a registered school or proposed school is seeking approval from NESA to modify part of a NESA syllabus at the time of applying for initial registration/initial exemption from registration or for renewal of its registration/exemption from registration, the registered school/proposed school should complete the appropriate section of the relevant form. Each of these application forms includes a section for applicants seeking approval to modify part of a NESA syllabus.
- Where a registered school is seeking approval from NESA during a period of registration/exemption from registration/initial registration/initial exemption from registration the school must submit a notification form, via [RANGS Online](#), nine (9) months prior to the intended date for implementing the modified outcomes.

For applications to modify part of a NESA syllabus, NESA will:

- acknowledge to the school receipt of the form
- arrange for an Inspector to:
 - examine the submitted application and any other submitted documentation
 - contact the school to identify whether further information is required and whether a visit to the school will be undertaken
 - examine the application and, where applicable, visit the school and examine any further information
 - write a report and make a recommendation
 - forward the report and recommendation to the proprietor and principal for feedback, submit the report and recommendation to the Registration Committee. This final process may take up to six (6) weeks
- forward the NESA decision to the school.

8 Refusal, Non-renewal or Cancellation of Registration and Accreditation

The Education Act makes provision for the registration and accreditation of a new school to be refused or for the registration and/or accreditation of an established non-government school not to be renewed or to be cancelled.

8.1 Process leading to refusal, non-renewal or cancellation of registration of a non-government school

Inspectors consider any documentation provided by the school and observations at an inspection visit in order to form opinions about compliance with the requirements of the Education Act relating to registration. When it is an Inspector's judgement that a new or established school has been unable to demonstrate compliance with the requirements, the Inspector will discuss these concerns with the proprietor and principal (or equivalent) and provide an opportunity for the school to provide further evidence of compliance.

If, following consideration of any further evidence of compliance the school provides, the Inspector has formed the judgement that the school does not comply with requirements of the Education Act in relation to registration, the Inspector will prepare a report that includes advice that the application for initial registration or renewal of registration of the school be refused or the registration of the school be cancelled.

If the Inspector advises refusal or cancellation of the registration of the school, the proprietor and principal (or equivalent) of the school will be given written notice detailing those registration requirements with which, in the opinion of the Inspector, the school does not comply. The proprietor and principal (or equivalent) will be given the opportunity to make written comment to the Registration Committee regarding the Inspector's advice.

If, following consideration of the Inspector's report and advice and the comments of the school's proprietor and principal (or equivalent), the Registration Committee is satisfied that the requirements of or the conditions of the Education Act in relation to registration are not being complied with, the Registration Committee will notify the proprietor and principal (or equivalent) of the school that it intends to recommend the refusal of the application for initial, or renewal of, registration of the school or to recommend registration be cancelled.

The proprietor and principal (or equivalent) of the school may make an appeal against the recommendation of the Registration Committee (refer to section 9.1 of the Manual).

If the appeal is unsuccessful, under section 59 of the Education Act the Minister may cancel the registration of a non-government school by giving written notice to the proprietor and principal (or equivalent) of the school. If the registration of a school is cancelled or the renewal of registration is refused, parents of students at the school must be notified in writing that the school is not registered and is no longer able to operate.

8.2 Process leading to refusal, non-renewal or cancellation of accreditation of a non-government school

Inspectors consider any documentation provided by the school and observations at an inspection visit in order to form opinions about compliance with the requirements of the Education Act relating to accreditation for the RoSA and/or HSC. When it is an Inspector's judgement that a new or established school has been unable to demonstrate compliance with the requirements, the Inspector will discuss these concerns with the proprietor and principal (or equivalent) and provide an opportunity for the school to provide further evidence of compliance.

If, following consideration of any further evidence of compliance the school provides, the Inspector has formed the judgement that the school does not comply with requirements of the Education Act in relation to accreditation for the RoSA and/or HSC, the Inspector will prepare a report that includes advice that the application for initial accreditation or renewal of accreditation of the school be refused or the accreditation of the school be cancelled.

If the Inspector advises refusal or cancellation of accreditation of the school, the proprietor and principal (or equivalent) of the school will be given written notice detailing those accreditation requirements with which, in the opinion of the Inspector, the school does not comply. The proprietor and principal (or equivalent) will be given the opportunity to make written comment to the Registration Committee regarding the Inspector's advice.

If, following consideration of the Inspector's report and advice and the comments on the advice by the school's proprietor and principal (or equivalent), the Registration Committee is satisfied that the requirements of the Education Act in relation to accreditation are not being complied with, the Registration Committee will notify the proprietor and principal (or equivalent) of the school that it intends to recommend the refusal of the application for initial, or renewal of, accreditation of the school or to recommend accreditation be cancelled.

The proprietor and principal (or equivalent) of the school may make an appeal against the decision of the Registration Committee (refer to section 9.1 of the Manual).

If the accreditation of a school is cancelled or the renewal of accreditation is refused, parents of students at the school must be notified in writing that the school is not accredited. Parents must also be informed of the consequences of the school not being accredited for students currently enrolled at the school.

9 Appeals for Review of Certain Decisions

9.1 Refusal, non-renewal or cancellation of registration and/or accreditation

An applicant may request an internal review of a Registration Committee recommendation or decision under the following circumstances:

- where the Registration Committee, under delegation from the Board, has decided to recommend to the Minister that the registration of a non-government school be refused, not be renewed or be cancelled, or
- where the Registration Committee, under delegation from the Board has decided not to accredit a school, not to renew the accreditation of a school or to cancel a school's accreditation.

The outcome of an internal review is determined by the Board. The review process is undertaken by officers from NESAs not involved in the initial assessment of the school's application for registration or accreditation. The documentation considered by the review includes that submitted by the school proprietor and/or principal (or equivalent) previously and any additional documentation that the applicant wishes to have considered, the Registration Committee decision and reasons for the decision and the internal review report prepared by another Inspector not associated with the original inspection report.

If the internal review supports the Registration Committee's original recommendation and/or decision, the school may appeal to the Tribunal against the recommendation and/or decision.

The appeal process involves the following steps:

- NESAs give the school proprietor and/or principal (or equivalent) written notice of a decision to make such a recommendation or decision.
- The school or applicant has twenty-eight (28) days in which to lodge an appeal in writing with the Tribunal.
- The Tribunal contacts the school proprietor and/or principal (or equivalent) to arrange a date on which the appeal will be heard.
- The Tribunal considers the appeal and makes a recommendation to the Minister. The Minister considers the recommendation of the Tribunal and makes a decision as to whether the school should be registered/accredited.

Under the Education Act, there is no appeal against the Minister's decision.

9.2 Reduction in the duration of registration and/or accreditation

An applicant may request an internal review of a Registration Committee recommendation or decision under the following circumstances:

- where the Registration Committee, under delegation from the Board, has decided to recommend to the Minister that the duration of registration be reduced, or
- where the Registration Committee, under delegation from the Board, has decided to recommend that the duration of accreditation be reduced or to reduce it in so far as it

relates to one of the recognised certificates.

An internal review is undertaken by the Board. The review process is undertaken by officers from NESA not involved in the initial assessment of the school's application for registration or accreditation. The documentation considered by the review includes that submitted by the applicant previously and any additional documentation that the applicant wishes to have considered, the Inspector's advice, the Registration Committee's intended recommendation and the reasons for that recommendation.

In dealing with an internal review of a recommendation by the Committee to the Minister to place a school on provisional registration, the Board will consider the Inspector's advice, any written comments from the proprietor and principal (or equivalent) in relation to the Inspector's advice, the Registration Committee's recommendation and reasons for the recommendation, and the internal review report prepared by another Inspector not associated with the original inspection report.

In dealing with an internal review of a recommendation by the Committee to the Board to place a school on provisional accreditation, the Board will consider the Inspector's advice, any written comments from the proprietor and principal (or equivalent) in relation to the Inspector's advice, the Registration Committee's recommendation and the reasons for the recommendation and the internal review report prepared by another Inspector not associated with the original inspection report.

There is no recourse to the Tribunal against recommendations to reduce the period of registration or decisions to reduce the period of accreditation.

9.3 Conditions of registration

The proprietor or principal (or equivalent) of a non-government school may seek an internal review of a decision by the Registration Committee to recommend to the Minister that conditions be imposed on the school's registration.

An internal review is undertaken by the Board. The review process is undertaken by officers from NESA not involved in the initial recommendation to impose conditions on the school's registration. The documentation considered by the review includes that submitted by the school previously and any additional documentation that the proprietor and/or principal (or equivalent) of the school wishes to have considered, the Inspector's report, the Registration Committee's intended recommendation and the reasons for that recommendation.

In dealing with an internal review of a recommendation by the Registration Committee to the Minister to impose conditions on a school's registration, the Board will consider the Inspector's report, any written comments from the proprietor and/or principal (or equivalent) in relation to the Inspector's report, the Registration Committee's recommendation and reasons for the recommendation, and the internal review report prepared by another Inspector not associated with the original report.

There is no recourse to the Tribunal against a recommendation by the Registration Committee, or against a decision by the Minister, to impose conditions on a school's registration.

9.4 Limitation or cessation of registration

Under the Regulations, a non-government school is required to notify NESAs when it ceases to operate or closes as soon as possible but not later than one (1) month after such a change has occurred (see sections 2.4.8 and 3.10.5 of the Manual).

In the event that a non-government school notifies NESAs that the school is to close or cease operating or has closed or ceased operating, NESAs will recommend to the Minister that a written notice be sent to the school confirming the relevant date of the cessation of the school's registration.

In the event that NESAs are advised that a non-government school has closed or ceased operation, and that advice is not the result of a notification by the school, NESAs will appoint an Inspector to investigate. Where the Inspector forms the opinion that the school has ceased operating or has closed, the Inspector will prepare a report that includes a recommendation that the school's registration be limited, in the case of ceasing operation for less than one (1) year. In the case of the school ceasing operation for at least two (2) years, or closing, the Inspector's recommendation will be that the school's registration cease.

The proprietor and/or principal (or equivalent) of the school will be provided with the opportunity to make written comment to the Registration Committee regarding the advice of the Inspector. In considering the Inspector's report and any written comment from the proprietor and/or principal (or equivalent) of the school, the Registration Committee, under delegation from the Board, will determine whether it intends to recommend to the Minister that the school's registration be limited or cease. Should the Registration Committee make such a determination, the proprietor and/or principal (or equivalent) of the school will be informed in writing. Under these circumstances, the proprietor and/or principal (or equivalent) of the school may seek a review of the Registration Committee's decision.

The outcome of an internal review is determined by the Board. The review process is undertaken by an Inspector not involved in the initial assessment of the school's circumstances. The documentation considered by the review includes that submitted previously by the school's proprietor and/or principal (or equivalent), any additional documentation that the proprietor and/or principal (or equivalent) wishes to have considered, the original Inspector's advice, the Registration Committee's intended recommendation and the reasons for that recommendation.

In dealing with an internal review of a recommendation by the Registration Committee to the Minister to limit or cease the registration of a school, the Board will consider the original Inspector's advice, any written comments from the proprietor and principal (or equivalent) in relation to the Inspector's advice, the Registration Committee's recommendation and reasons for the recommendation, and the internal review report prepared by another Inspector not associated with the original report.

There is no recourse to the Tribunal against a recommendation to limit or cease the registration of a school.

9.5 Rejection of an application to modify part of a NESA syllabus

When it is an Inspector's judgement that there are concerns that the proposed modifications do not meet the requirements of the Education Act, the Inspector will discuss these concerns with the principal (or equivalent) and provide opportunity for the school to provide further information.

If, following consideration of any further information the school provides, the Inspector continues to have concerns that the modifications may not comply with the requirements of the Education Act in relation to modifying part of a NESA syllabus, the Inspector will prepare a report that includes a recommendation that the application be rejected.

Where a recommendation is made to reject an application to modify part of a NESA syllabus, the proprietor and principal (or equivalent) of the school will be given written notice detailing those requirements of the Education Act with which, in the opinion of the Inspector, the proposed modifications may not comply.

The proprietor and principal (or equivalent) will be provided with the opportunity to make written comment to the Registration Committee regarding the recommendation of the Inspector. Following consideration of the Inspector's advice and any written comment from the proprietor and/or principal (or equivalent) of the school, the Registration Committee will determine whether it intends to make a recommendation to the Board that the application to modify part of a NESA syllabus be rejected. The proprietor and principal (or equivalent) will be informed in writing of the Registration Committee's intention to recommend to the Board that the application to modify part of a NESA syllabus be rejected. The proprietor and principal (or equivalent) may seek a review of the decision.

An internal review is undertaken by the Board. The review process is undertaken by Officers from NESA not involved in the initial assessment of the school's application for approval to modify part of a NESA syllabus. The documentation considered by the review includes that submitted by the applicant previously and any additional documentation that the applicant wishes to have considered, the Inspector's advice, the Registration Committee's intended recommendation and the reasons for that recommendation.

In dealing with an internal review of a recommendation by the Registration Committee to the Board to reject an application to modify part of a NESA syllabus, the Board will consider the Inspector's advice, any written comments from the proprietor and principal (or equivalent) in relation to the Inspector's advice, the Registration Committee's recommendation and reasons for the recommendation, and the internal review report prepared by another Inspector not associated with the original inspection report.

If the Registration Committee or, following an internal review, the Board, is satisfied that the proposed modifications do not meet the requirements of the Education Act, the Registration Committee or, following an internal review, the Board will recommend that the application to modify part of a NESA syllabus be rejected.

There is no recourse to the Tribunal against decisions to reject an application to modify part of a NESA syllabus.

In the event that NESA is unable to approve a modification because of an inconsistency between the modification sought and the curriculum guidelines, the school may request a review of that aspect of the curriculum guidelines.

10 Glossary

This glossary is provided to assist schools. Where there is any conflict between these definitions and the definitions in the Education Act or any other legislation, the statutory definitions prevail.

accreditation	Compliance with Part 8 of the <i>Education Act 1990</i> (NSW) including section 94, for the Record of School Achievement, or section 95 for the Higher School Certificate, allowing entry of candidates for the award of these credentials.
ACE website	The NESA <i>Assessment Certification Examination</i> website (see ace.nesa.nsw.edu.au).
Australian Dietary Guidelines	Guidelines that provide advice to the general population about healthy food choices, so that their usual diet contributes to a healthy lifestyle and is consistent with minimal risk for the development of diet-related disorders.
Board	The NSW Education Standards Authority Board.
boarding facilities	Facilities, including overnight accommodation, provided by the school itself or under contractual arrangement for students enrolled at the school. This excludes accommodation provided for day pupils away from school premises during a brief school trip and 'home stay' accommodation.
campus	A campus is part of a registered non-government school where that part is located at a different site and used for the delivery of courses as described by Parts 1, 3, 7 and 8 of the <i>Education Act 1990</i> (NSW) or for the provision of amenities for teachers and students participating in those courses or for the provision of boarding facilities.
Community Services	Government agency responsible for Family and Community Services (FACS) (formerly Department of Community Services (DoCS)).
complaint	A grievance, expression of dissatisfaction or formal allegation.
compulsory years of schooling	From the age of six (6) years to the age at which a child completes Year 10 of secondary education (subject to the participation requirements of section 21B(3) of the Education Act) or the age of seventeen (17) years, whichever occurs first.
corporal punishment	The application of physical force to punish or correct the student, but not including the application of force to prevent personal injury to, or damage to or the destruction of property of, any person (including the student).
curriculum guidelines	Guidelines developed by NESA and approved by the Minister.

direct-on-site-supervision	Direct on-site supervision occurs when a qualified teacher acts as a supervisor and provides advice on the quality and appropriateness of pedagogy and student behaviour management strategies to a member of staff who is working towards the standard of professional teacher competence. The supervisor is on the same school site but does not need to be present for every lesson of the teacher being supervised.
distance education	The delivery of courses of study by a school to students enrolled in the school during which the students and teachers are not regularly in the presence of each other but communicate with each other in writing, by print or by electronic or other means.
Education Act	The <i>Education Act 1990</i> (NSW): legislation enacted in the New South Wales Parliament in 1990 – see NSW legislation (www.legislation.nsw.gov.au).
exclusion	The act of preventing a student's admission to a number of schools.
expulsion	The permanent removal of a student from one particular school.
external provider	Any organisation that the school has entered into an arrangement with to deliver a specific course of study that is part of the curriculum as described by Parts 1, 3, 7 and 8 of the Education Act to a student or students enrolled at the school.
Inspector	An officer of NESA, employed or appointed under section 104 of the <i>Education Act 1990</i> (NSW) to enable NESA to exercise its functions under section 102 of the <i>Education Act 1990</i> (NSW).
legal entity approved by the Minister to operate an individual non-government school	A registered company or a trust including religious organisations.
Manual	<i>Registered and Accredited Individual Non-government Schools (NSW) Manual</i> , NSW Education Standards Authority.
mentally incapacitated person	A person who is a temporary patient, a continued treatment patient or a forensic patient within the meaning of the <i>Mental Health Act 2007</i> (NSW), or a protected person within the meaning of the <i>NSW Trustee and Guardian Act 2009</i> .
minimum curriculum	For primary schools, section 8 and for secondary schools, section 10 of the <i>Education Act 1990</i> (NSW). Not applicable to schools providing education of a kind, or for children of a kind, as prescribed by the Regulations.
Minister	Minister for Education, New South Wales.
NESA	NSW Education Standards Authority.

NESA website	educationstandards.nsw.edu.au
non-government school	An institution that is not owned by the State Government, is registered by the Minister or granted exemption from registration by the Minister, and whose major activity is the provision of education, either primary or secondary (or both) or of a kind, or for children of a kind, prescribed by the Regulations.
‘on-site’ supervisor	Person who supervises a distance-education student’s tests, examinations and/or assessment tasks. ‘On-site’ supervisors may be family or community members who have not had any teacher training.
outside tutor	A person other than a teaching staff member of the school, whom the school has approved to deliver a specified course that is part of the curriculum as described by Parts 1, 3, 7 and 8 of the Education Act to students enrolled in the school.
policy	An official statement of the school’s goals or objectives in an area of school governance which outlines the associated procedures, activities or other key elements in a way that demonstrates how these goals or objectives are to be achieved. This Manual specifies those areas of school governance where it is a registration/accreditation requirement for a school to have a policy.
principal	The most senior member of the teaching staff of a school, with responsibility for the effective and efficient day-to-day operations of the school, including compliance with the Education Act.
procedural fairness	Application of the ‘hearing rule’ and the ‘right to an unbiased decision’ when implementing policies and procedures where decisions are to be made which affect the rights of others.
proprietor	The legal entity that owns the school or schools.
RANGS Online	The NESA secure online website for non-government schools and registration systems to make applications and notifications to NESA and to submit annual reports (bosho.boardofstudies.nsw.edu.au/links/rangsonline).
RANGS website	rego.nesa.nsw.edu.au
recognised teacher institution	Any accredited tertiary institution that offers courses in teacher education.
registration	Compliance with Part 7 of the Education Act including section 47, relating to approval to operate as a school, but does not include entering candidates for the Record of School Achievement and the Higher School Certificate Examination.
Registration Committee	Refer to ‘School Registration Committee’ of NESA.

registration system	A grouping of 20 or more schools (or, with the Minister's approval, 11 to 19 schools) which has been approved by the Minister to ensure compliance with the requirements for registration and, if appropriate, accreditation for the schools within that registration system.
reportable conduct	Conduct or behaviour which must be reported to the Ombudsman pursuant to the <i>Ombudsman Act 1974</i> including child sexual assault and sexual misconduct.
'residential school' sessions	Periods of time when students and teachers are in the presence of each other at the same physical location to undertake learning activities related to the educational program provided by the school including a specific focus on the personal and social development of students.
'responsible person' for a school	<ul style="list-style-type: none"> ▪ the proprietor of the school and, if the proprietor is a corporation, each director or person concerned in the management of the school, or ▪ a member of the governing body of the school, or ▪ the principal of the school.
risk management	A management plan for assessing the potential for harm and taking action towards minimising the risk of harm. This may include a plan for responding to serious incidents and emergencies.
safe environment	One where the risk of harm is minimised and students are secure. 'Harm' relates not only to dangers in the built environment but also refers to violence, physical threats, verbal abuse, threatening gestures, sexual harassment and racial vilification.
School Registration Committee of the NSW Education Standards Authority	A standing committee of NESA which has the delegation under the NESA Act to exercise the powers of NESA relating to registration and accreditation.
scope and sequence	A summary of the scope of what is to be taught and the sequence in which it will be delivered. (educationstandards.nsw.edu.au/wps/portal/nesa/k-10/understanding-the-curriculum/programming/advice-on-scope-and-sequences)
serious incident	An event which: <ul style="list-style-type: none"> ▪ causes disruption to a school, or ▪ creates significant danger or risk that could traumatically affect individuals within the school, or ▪ impacts on the effective operation of the school.
signatory for the proprietor	Person nominated by the proprietor to sign for and act on behalf of the proprietor, for example, the chairperson of a governing body.

Special School	A school classified by the Australian Government as Special must provide evidence that its students have been assessed by a person with relevant qualifications as having intellectual, sensory, physical, social/emotional or multiple impairments to a degree that satisfies the criteria for enrolment in special education services or programs provided by the State, where/if such services are provided by the State.
supportive environment	An environment that facilitates and enhances the social, academic, physical and emotional development of students.
suspension	A temporary debarment of a student from all of the classes that a student would normally attend at a school.
system	See registration system.
Tribunal	The NSW Civil and Administrative Tribunal to which a school proprietor can lodge an appeal against certain recommendations or decisions of NESA under the Education Act.
Vocational Education and Training (VET) course	A course that has been approved by both NESA and Australian Skills Quality Authority (ASQA) for teaching in schools. Students receive credit towards both their HSC and an industry training qualification. See the <i>ACE</i> website for more details.

11 Appendix – Information about other Legislation

NESA's responsibilities in relation to the registration and accreditation of non-government schools and the monitoring of registration systems derive from the Education Act.

Over and above this Act, however, schools and registration systems must be cognisant of a range of Commonwealth and State legislative requirements with which they may need to comply.

It is the responsibility of schools and registration systems to ensure that the requirements of relevant legislation are understood and met, as appropriate.

At the time of publishing this Manual, the following Acts and regulations were considered relevant points of reference for schools and registration systems. This list of Acts is not exhaustive and the information should be checked with the appropriate source to ensure accuracy, relevance and currency.

- *Disability Discrimination Act 1992* (Cth) and *Disability Standards for Education 2005* (Cth) (legislation.gov.au)
- *Privacy Act 1988* (Cth) (legislation.gov.au)
- *Privacy and Personal Information Protection Act 1998* (NSW) (legislation.nsw.gov.au)
- *Work Health and Safety Act 2011* (NSW) and the *Work Health and Safety Regulation 2017* (NSW) (legislation.nsw.gov.au)
- *Animal Research Act 1985* (NSW) (legislation.nsw.gov.au)
- *Environmental Planning and Assessment Act 1979* (NSW) (legislation.nsw.gov.au)
- *Explosives Act 2003* (NSW) (legislation.nsw.gov.au)
- *Poisons and Therapeutic Goods Act 1966* (NSW) and the *Poisons and Therapeutic Goods Regulation 2008* (NSW) (legislation.nsw.gov.au)
- *Copyright Act 1968* (Cth) (legislation.gov.au)
